Selection Procedure (members)

In accordance with the Council Conclusions of 12 May 2009 on a strategic framework for European cooperation in education and training, and taking into account the Europe 2020 objective of reducing early school leaving to less than 10% Europe-wide by 2020, which was agreed by the heads of State and government in June 2010, the European Commission has decided that Membership of the existing Group of Stakeholder Organisations in the field of Schools Policy should be extended also to European and international organisations (associations, foundation and NGOs) that deal with the related policy areas of early school leaving and early childhood education and care. The organisations were selected on the basis of the following criteria: • have stated objectives giving them a direct interest in one of the above policy areas, • have recognised, long-established expertise and experience in one of the above policy areas, • be active in more than one EU Member State • the need for a proper balance e.g. between the representatives of social and economic bodies, large and small organisations or companies, wider constituencies and more specific target groups. The organisations were invited to indicate their interest in joining the group and to nominate their representatives.

Internal Rules of Procedure

Expert groups operate in an informal setting without any formal rules or procedures. This is the case for this group.
