## **Additional Information**

### **Activity Report**

The Commission adopted in 2006 an EU strategy to support Member States in reducing alcohol-related harm. The Strategy addresses the adverse health effects related to harmful and hazardous alcohol consumption, as well as the related social and economic consequences. As one cornerstone for the implementation of this Strategy, the signatories of this Charter have agreed to establish a European Alcohol and Health Forum. The overall objective of the Forum is to provide a common platform for all interested stakeholders at EU level that pledge to step up actions relevant to reducing alcohol-related harm. The Forum is meeting two times per year. On 8th April 2011 the 8th Plenary Meeting took place.

### **Selection Procedure (members)**

Forum members should be umbrella organisations operating at a European level, capable of playing an active role in reducing alcohol-related harm in the EU, and willing to engage in concrete and verifiable commitments towards this end. Organisations operating at national or sub-national level, or individual companies, can also be members of the Forum, if they are willing to engage in concrete and verifiable commitments under the Forum process and if their European-level umbrella organisation or federation is a member of the Forum. The Policy area of the members of this group is Public Health, with a special emphasis on Alcohol.
