Selection Procedure (members)

The expert group was created based on a call for expression of interest orally presented during the launch conference of the LIND-Web Platform (Language Industry Web Platform) in November 2010. The selection was made according to the eight sub-sectors of the language industry identified in the study on the Size of the Language Industry in 2009. In addition, emphasis was given to geographic representativeness and gender.

Internal Rules of Procedure

Expert groups usually operate in an informal setting without any formal rules of procedure. This is the case for this group.
