Selection Procedure (members)

The H2020 Societal Challenge 5 (SC5) Advisory Group members were initially selected in 2013 from the database established using the submissions to the Call for expressions of interest for the selection of experts for the Horizon 2020 Advisory Group. The membership of the SC5 AG was renewed at the end of 2015 in accordance with the mandate of the group and subsequent instructions from Director General

for Research and Innovation Robert-Jan Smits. The newly nominated members have been selected by DG Research and Innovation in compliance with the Horizon 2020 Rules for participation and dissemination (OJ 2013/L 347/81), based on proven competence and experience in areas of relevance to SC5 and expertise on cross-cutting issues of relevance to H2020, while ensuring the necessary competence, geographical and gender balance. In addition to the general rules, criteria of particular relevance to Horizon 2020 Societal Challenge 5 were used, such as proven contributions to high level international initiatives in the fields of climate, environment, resource efficiency and raw materials research; representatives of relevant Public-Public Partnerships, and Public-Private-Partnerships, European Technology Platforms, relevant international organisations, national Environment Protection Agencies, and industry associations relevant to Challenge 5. For individuals appointed to represent a stakeholder interest or organisation, the capacity of the candidate to represent effectively the position of his/her organisation or stakeholder group were taken into account. The final composition of the SC5 AG aims to achieve a more systemic and strategic group with experts having a broad vision and fresh ideas, while at the same time retaining technical expertise in the areas covered by SC5 and further enhancing the expertise and vision of the SC5 AG according to Juncker's agenda and the strategic priorities of Commissioner Moedas.
