Commission Expert Group

Name: Horizon 2020 Advisory Group on European Research Infrastructures including eInfrastructures (E02940)
(Active - Group which operates on a permanent basis)

Policy Area: Research and Innovation

Lead DG: RTD - DG Research and Innovation

Associated DG: CNECT - DG Communications Networks, Content and Technology

Type: Informal, Temporary

Scope: Limited

Mission: To contribute to the implementation of Horizon 2020, the European Unions's new funding programme for research and innovation for the period 2014-2020, and in particular of the Part 'Research Infrastructures' within the 'Excellent Science' pillar, by giving advice to the Commission services (the advice provided will contribute to a broader policy context: to the Europe 2020 Strategy, the innovation Union, and other relevant EU policies).

Task: Provides expertise to the Commission when preparing implementing measures, i.e. before the Commission submits these draft measures to a comitology committee

Selection Procedure (members)

The Advisory group members are selected from the database made with the Call for expressions of interest for the selection of experts for the Horizon 2020 Advisory group. The following criteria are taken into account: Proven competence and experience of the individual candidate or of the designated representatives from organisations, including at European and/or international level, in the area of Research Infrastructures including e-Infrastructures. Proven competence and experience of the individual candidate or, of the designated representatives from organisations, in horizontal expertise, including cross-cutting issues of relevance to Horizon 2020. In addition, for individuals appointed to represent a stakeholder' interest, the proven capacity of the candidate to represent effectively the position shared by stakeholders, and for individuals appointed to represent an organisation, the competence, experience and hierarchical level of the proposed representative. The final composition of the group takes into account the need to ensure balanced participation in terms of representativeness of stakeholders, gender, age and geographical origin (without calling into question the necessary level of expertise and insight).
