Commission Expert Group

Name: Horizon 2020 Advisory Group for Nanotechnologies, Advanced Materials, Biotechnology and Advanced Manufacturing and Processing (E02962)
(Active - Group which operates on a permanent basis)

Abbreviation: NMBP

Policy Area: Research and Innovation

Lead DG: RTD - DG Research and Innovation

Type: Informal, Temporary

Scope: Limited

Mission: Members of the 'Leadership in Enabling and Industrial Technologies, Nanotechnologies, Advanced Material and Advanced Manufacturing and Processing' ("LEIT-NMP") Advisory Group should provide consistent and consolidated advice to the Commission services during the preparation of the Horizon 2020 work programme, regarding the LEIT-NMP part of the Specific Programme. Advice should be provided on relevant objectives and scientific, technological and innovation priorities by way of opinions, recommendations or reports. The Advisory Group does not take binding decisions.

Task: Assist the Commission in the preparation of legislative proposals and policy initiatives

Contact: RTD-HORIZON2020-NMBP-ADVISORY-GROUP@ec.europa.eu

Activity Report

The first meeting will take place on 25/10/2013.

Selection Procedure (members)

The Advisory group members are selected from the database made with the Call for expressions of interest for the selection of experts for the Horizon 2020 Advisory group. Following criteria is taken into account: Proven competence and experience of the individual candidate or, of the designated representatives from organisations, including at European and/or international level, in area of the challenge. Proven competence and experience of the individual candidate or, of the designated representatives from organisations, in horizontal expertise, including cross-cutting issues of relevance to Horizon 2020. In addition, for individuals appointed to represent a stakeholder's interest, the proven capacity of the candidate to represent effectively the position shared by stakeholders, and for individuals appointed to represent an organisation, the competence, experience and hierarchical level of the proposed representative. The final composition of the group takes into account the need to ensure balanced participation in terms of representativeness of stakeholders, gender, age and geographical origin (without calling into question the necessary level of expertise and insight). The experts of the group will be designated in accordance with the Commission rules on expert groups (C(2010) 7649 / SEC(2010) 1360).

Internal Rules of Procedure

Expert groups usually operate in an informal setting without any formal rules of procedure. This is the case for this group.

Other

The Advisory group shall consist of 32 experts. Experts participate in the Group in their individual capacity or as individuals representing an interest or an organisation. Experts commit themselves to discuss questions put forward and provide advice in their relevant field of expertise to the best of their ability and in the best interest of EU research and innovation. They also commit themselves to respect the rules related to confidentiality and conflicts of interest. Advice to the Commission is the result of discussions within the Group. This advice is expected to represent the consensus view of the Group. However, in the event that a consensus cannot be found, for whatever reason, individual experts may request to have divergent views recorded. As well as bringing forward their own collective expertise, the Group may also be a focal point for processing inputs from across society related to this [challenge/part]. The Group will thereby support outreach and strengthening of the Commission services' dialogue with a wider group of stakeholders. In addition, the experts with expertise in the mainstreamed cross-cutting issues like, for instance, gender may also meet on a regular basis to provide a critical mass of specialised expertise to assist with additional horizontal advice on such important issues, while at the same time ensuring clear links between the horizontal and more specialised level. DURATION OF SERVICE Each expert will serve for a period of two years with the possibility of renewal once for a final period of maximum two more years.
