### **Selection Procedure (members)**

The members of the group were chosen from the European Commission, relevant European Agencies and the relevant Competent Authorities of the Member States. Commission Services and European Agencies having stakes in the risk assessment and risk management of chemicals were invited to nominate representatives. Member States' Competent Authorities for REACH and CLP, the Standing Committee on the food chain and Member States' Competent Authorities for biocidal products were invited to nominate up to three experts per Member State/EEA EFTA countries. The observers were chosen amongst the representatives of civil society and industry associations, operating at the EU level. Representatives of civil society and of industry associations operating at the EU level, having stakes in three pieces of legislation containing provisions on endocrine disruptors (REACH, Plant Protection Product Regulation, Biocidal Product Regulation), were both invited to nominate up to 4 representatives each as observers to the meeting. The decision on who exactly will participate was left to the respective invitees.

### **Internal Rules of Procedure**
