Mr Aboubakari Baba-Moussa
Director
Infrastructure and Energy
African Union
P.O. Box 3243
Addis Ababa, Ethiopia

Dear Mr. Baba-Moussa,

I would like to thank you for all the hard work that the African Union Commission has put on the organisation and unfolding of the EU-Africa Aviation Conference in Windhoek. We can be extremely proud of the results of the meeting, both in terms of the high level of the participants and the quality of the speakers.

I particularly welcome the leadership that Commissioner Ibrahim has shown through her attendance and participation in the different sessions of the event.

It is crucial that we take stock of the momentum created, and send a clear message about the shared common strategic framework and the agreed next steps in relation to the EU-Africa aviation relations.

You will find in annex to this letter the Joint Statement of the European Commission and the African Union Commission on the Conference and the Common Strategic Framework and Action Plan.

As you know, these documents have already been prepared and discussed by both the EC and AUC services.

I would be very pleased if you could circulate these documents and give them the wider audience. I hope that we can apply the actions they envisaged as soon as possible.

Yours sincerely,

~~Daniel CALLEJA~~
