## RIPCORD-ISEREST

### Road Infrastructure Safety Protection

Project details	
Domain	Road and Tunnel Infrastructure
Duration	from 1/01/2005 until 31/12/2007
Website	<a href="http://www.ripcord-iserest.com/">http://www.ripcord-iserest.com/</a> <a href="http://www.seroes.eu">http://www.seroes.eu</a>
Other sources	 <a href="#">Brochure: Road Infrastructure Safety Management</a> (2,21 MB)  <a href="#">Road Safety Impact Assessment: Recommendations</a> (435 kB)  <a href="#">Road Safety Audits best practice</a> (673 KB)  <a href="#">Road Safety Inspections best practice</a> (1,21 MB)  <a href="#">Network Safety Management best practice</a> (1,93 MB)  <a href="#">SEROES: Safety Information Expert System</a> (2,18 MB)  <a href="#">Safety Handbook for Secondary Roads</a> (8,11)

Road infrastructure related safety measures offer a large potential that could be exploited for a significant reduction of road accidents and their consequences.

Researchers and practitioners in the member states of the European Union have made great efforts to improve traffic safety. Many of these approaches have already led to a significant reduction in fatalities.

The objective of this project is to collect and to evaluate these approaches in order to make them accessible throughout Europe and to develop tools, which could be used to improve traffic safety.
