The **Youth on the Road initiative** held by P.A.U. Education with the support of the European Commission (Directorate General of Transport and Energy) aims at promoting the participation of young people in road safety actions.

Youth on the Road will be a participative platform that will promote youth road safety initiatives at the local level in 100 European cities.

A youth and road safety network involving cultural, social and educational communities directly related to children and young adults will be built
