Subject: PS Blind-Spot mirrors A/22860

Dear colleague

The Parliamentary Advisory Council for Transport Safety (UK) welcomes the proposal from the Commission to require the fitting of blind-spot equipment to existing trucks.

What somewhat confuses us, however, is the changing of words from the earlier directive. This referred to devices for indirect vision. Would it not be preferable to retain the same wording in order to allow for maximum flexibility in dealing with the improvement of rearward vision?

Best wishes

Robert Gifford  
Parliamentary Advisory Council for Transport Safety
