"Youth on the Move offers young people many opportunities: to move around in Europe, to study abroad, to volunteer in a different cultural milieu or to obtain work experience in a foreign setting. Young people need to know about these possibilities and make use of them."

Jan Trusczyński

Marko Košiček, a young scientist who works at the Ruđer Bošković Institute, and **Tamara Gal**, a young, highly successful musician. Listen to their testimonies and experiences working and studying abroad. **Meet them on Wednesday 19 June at 11.45.**

"Science does not recognise borders, nations or nationalities. It is a universal tool, which provides better understanding of life and the world around us. Working in international collaboration is something I would recommend to every young PhD student and that's why I support the Youth on Move project as an Ambassador".

Marko Košiček

"My experience of living and studying abroad has made me a citizen of the world.
