

THE ORGANIC LOGO OF THE EU

Organic farming is a way of producing food that seeks to respect the environment. It applies to all kinds of products e.g. fruit, vegetables, meat, milk, wine, cheese, eggs, grains, coffee, chocolate, fish & seafood.

Whenever you buy organically certified food, you can be confident that it has been produced in accordance with strict EU environmental and animal welfare rules, and is checked regularly. Operators are **inspected** by a public or private control body. If the result is positive, operators receive a certificate and can market their products as organic;

Operators are inspected at least **once per year** to ensure that they respect organic rules.
