

Multiannual Financial Framework 2014-2020 and the financing of the CAP

The overall amounts of the Multiannual Financial Framework (MFF) for the period 2014-2020 received the consent of the European Parliament on 19 November 2013.

For the CAP, the following amounts were taken into account for direct payments and rural development (expressed in current prices):

1. Direct payments

For financial year 2014 for direct payments it is the existing Regulation (EC) No 73/2009 which applies and with the new MFF financial discipline has been applied to the ceiling.

The amounts for direct payments shown in the table correspond to:

- For financial year 2015, the amounts in Annex VIII to the amended Regulation (EC) No 73/2009 after adoption of the transitional regulation;
- For financial years 2016-2020, the amounts in Annex II of the direct payments regulation.

These regulations are expected to be voted by the European Parliament on 20 November 2013 and to be adopted by the European Parliament and the Council by end December 2013.

The amounts for direct payments are:

- before degressivity/capping;
- before flexibility between the pillars of the CAP;
- before application of the financial discipline mechanism (for the establishment of the reserve for agricultural crises) for financial years 2015-2020;
- for financial years 2016-2020:
 - before the definitive wine transfer decided by Member States;
 - before Croatia's demining reserve.

The amounts for financial years 2015-2020 in the table below do not include cotton payments and direct payments under the POSEI scheme, which are set out in different annexes/regulations.

Direct payments - ceilings by Member State

(current prices in thousand EUR)

2. Rural development

The amounts for rural development shown in the table correspond to the allocation set out in the annex to the rural development regulation, which is expected to be voted by the European Parliament on 20 November 2013 and to be adopted by the European Parliament and the Council by end December 2013.

The amounts for rural development are:

- before flexibility between the pillars of the CAP;
- before transfers from the first pillar of the CAP (i.e. voluntary adjustment, amounts under Article 136 and 136b of Regulation (EC) No 73/2009 and the envelope for the cotton restructuring programme of one Member State).

The table shows also the amount for technical assistance to be available for the Commission, which is not allocated among the Member States.

Breakdown of Union support for rural development (2014 to 2020)
