- **Scope of MiFID II**
 - Ancillary activity
 - Definition of financial instruments
- Position control framework
 - Position limits
 - Position reporting
- Transparency and liquidity

Investment services and activities (annex I, section A, MiFID II)

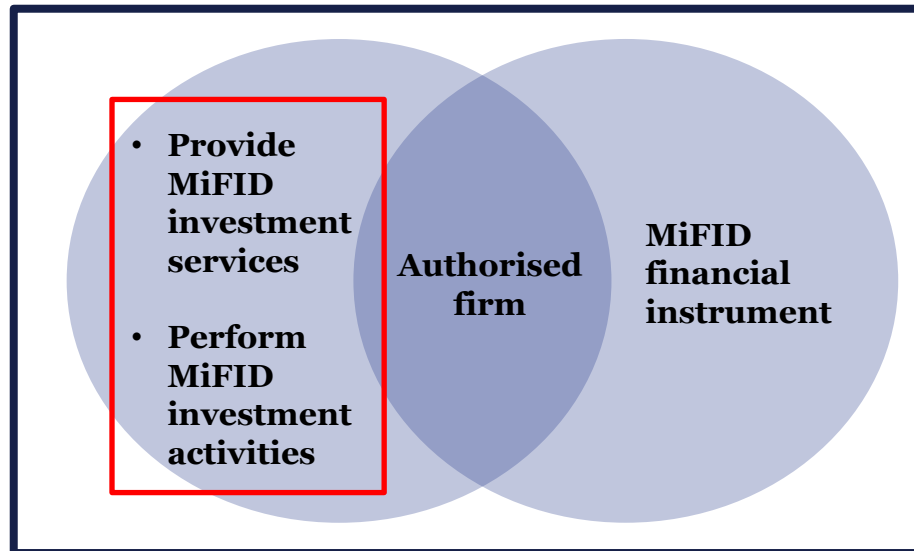

- (1) Reception and transmission of orders in relation to one or more financial instruments;
- (2) Execution of orders on behalf of clients;
- (3) Dealing on own account;
- (4) Portfolio management;
- (5) Investment advice;
- (6) Underwriting of financial instruments and/or placing of financial instruments on a firm commitment basis;
- (7) Placing of financial instruments without a firm commitment basis;
- (8) Operation of an MTF;
- (9) Operation of an OTF.

Financial Instruments (annex I, section C, MiFID II)

- (1) Transferable securities
- (2) Money-market instruments
- ...
- (6) Options, futures, swaps, and any other derivative contract relating to commodities that can be physically settled provided that they are traded on a regulated market, a MTF, or an OTF, except for wholesale energy products traded on an OTF that must be physically settled;
- (7) Options, futures, swaps, forwards and any other derivative contracts relating to commodities, that can be physically settled not otherwise mentioned in point 6 of this Section and not being for commercial purposes, which have the characteristics of other derivative financial instruments;
- ...
- (11) Emission allowances

- How we got here
- **Scope of MiFID II**
 - **Ancillary activity**
 - Definition of financial instruments
- Position control framework
 - Position limits
 - Position reporting
- Transparency and liquidity

MiFID I		MiFID II	
Article 2(1)(k)	main business consists of dealing on own account in commodities and/or commodity derivatives	Deleted	
Article 2(1)(i)	dealing on own account in financial instruments, or providing investment services in commodity derivatives or derivative contracts providing the activity is ancillary to their main business	Article 2(1)(j)	dealing on own account in commodity derivatives/ emission allowances and derivatives thereof , or providing investment services in such instruments to customers/ suppliers providing the activity is ancillary to their main business
		Article 2(1)(d)	dealing on own account in instruments other than commodity derivatives/ emission allowances and derivatives thereof providing conditions met

	Exemption	ESMA DP
1	Intra-group liquidity exemption: <i>intra-group transactions referred to in Article 3 EMIR that serve group-wide liquidity or risk management purposes</i>	Proposes to follow EMIR definition
2	“Hedging exemption”: <i>transactions in derivatives which are objectively measurable as reducing risks directly relating to the commercial activity or treasury financing activity</i>	Proposes to follow EMIR definition
3	Liquidity obligation exemption: <i>transactions in commodity derivatives/ emission allowances entered into to fulfil obligations to provide liquidity on a trading venue where such obligations are required by regulatory authorities or trading venues</i>	Seeks examples

TEST 1

Does a non-financial firm’s “ancillary activities” constitute a minority of activities at group level?

Calculations proposed in the DP

Capital employed for dealing on own account
plus
 Capital employed for the provision of other investment services to customers and suppliers of the main business
minus
 exempt activity

DIVIDED BY

Capital for overall activity at group level
minus
 Capital employed for dealing on own account
minus
 Capital employed for the provision of other investment services to customers and suppliers of the main business
minus
 exempt activity*

Capital employed for dealing on own account
minus
 exempt activity

DIVIDED BY

Capital for overall activity at group level
minus
 Capital employed for dealing on own account
minus
 Capital employed for the provision of other investment services to customers and suppliers of the main business
minus
 exempt activity*

Capital employed for the provision of other investment services to customers and suppliers of the main business
minus
 exempt activity

DIVIDED BY

Capital for overall activity at group level
minus
 Capital employed for dealing on own account
minus
 Capital employed for the provision of other investment services to customers and suppliers of the main business
minus
 exempt activity*

TEST 2

What is the size of the firm’s trading activity per asset class compared to the overall size of trading activity?

Calculations proposed in the DP

Volume of trading activity
minus
*exempt activity**

=

Size of firm’s trading activity

Size of firm’s trading activity

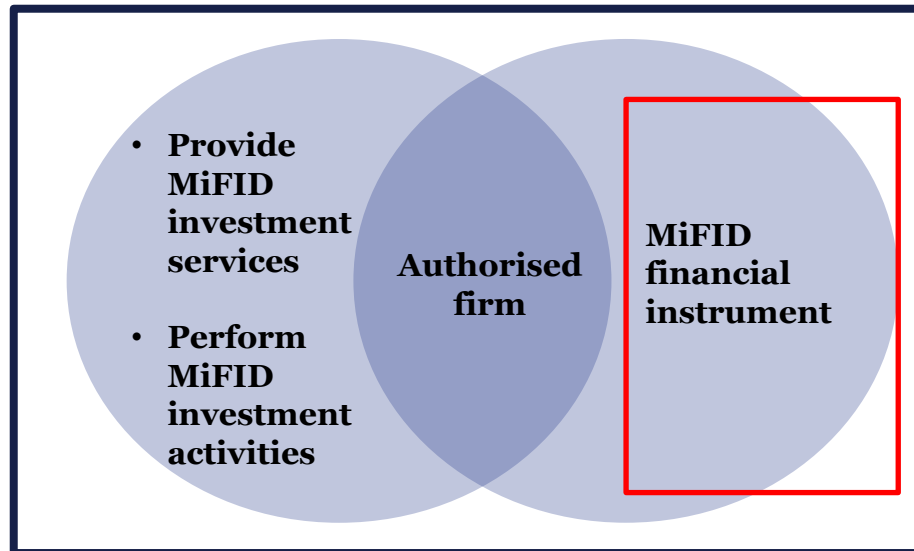

DIVIDED BY

Overall size of trading in the market

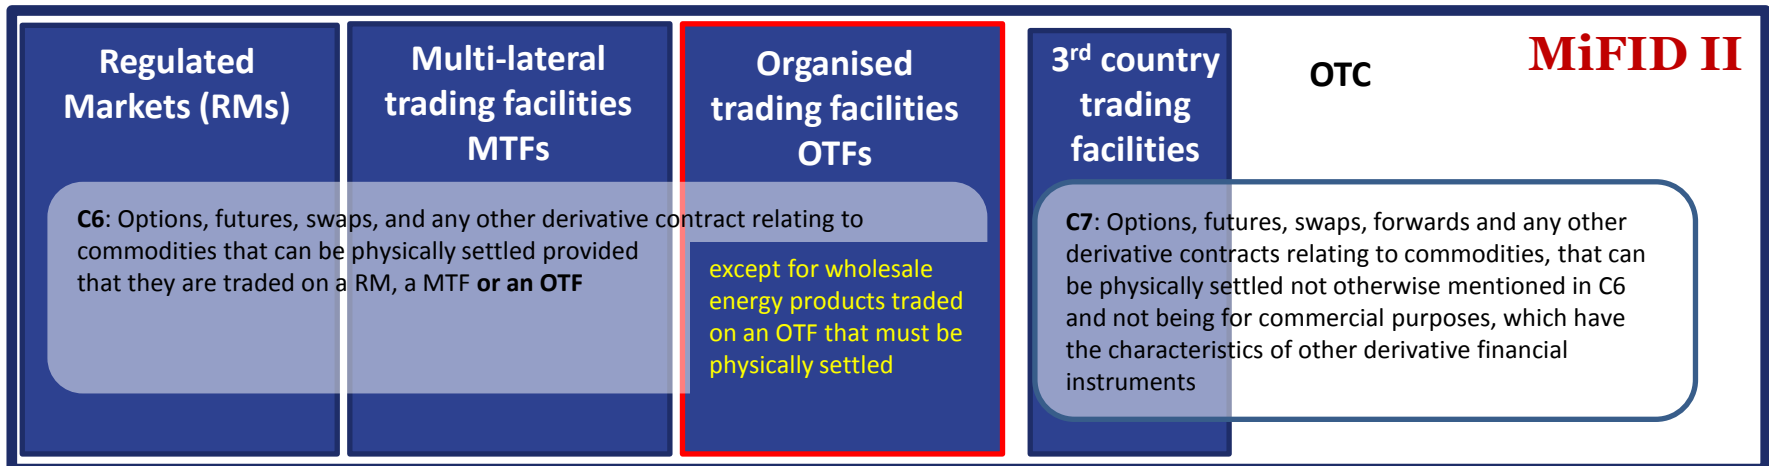

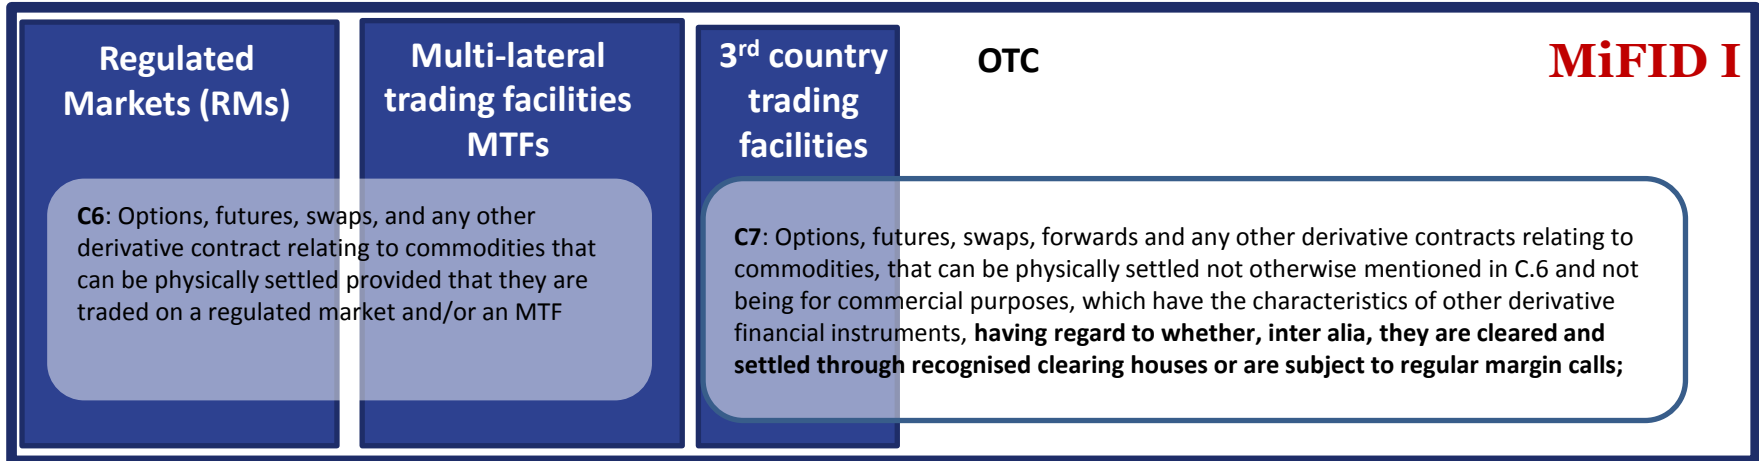

Asset Classes

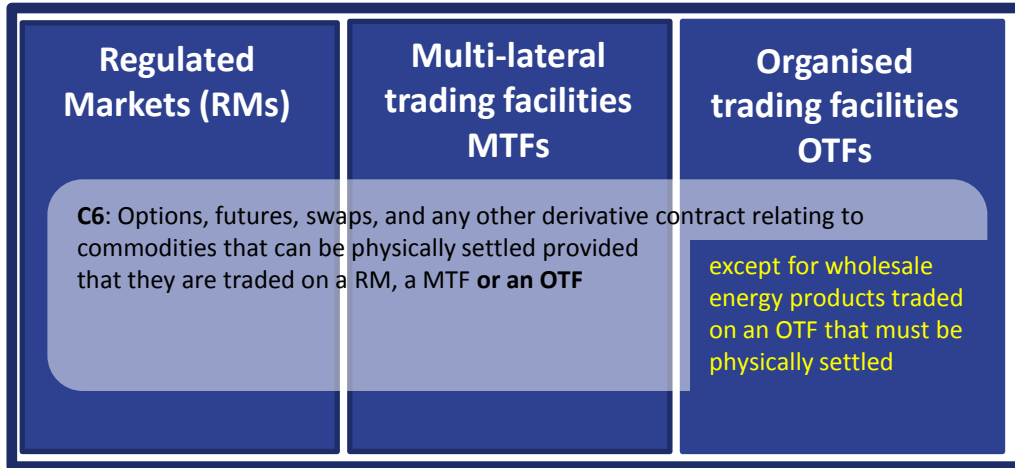

- (1) Metals
- (2) Oil & oil products
- (3) Coal
- (4) Emissions
- (5) Gas
- (6) Power
- (7) Agricultural products
- (8) Freight

- How we got here
- **Scope of MiFID II**
 - Ancillary activity
 - **Definition of financial instruments**
- Position control framework
 - Position limits
 - Position reporting
- Transparency and liquidity

MiFID II scope: financial instruments – C6 and C7

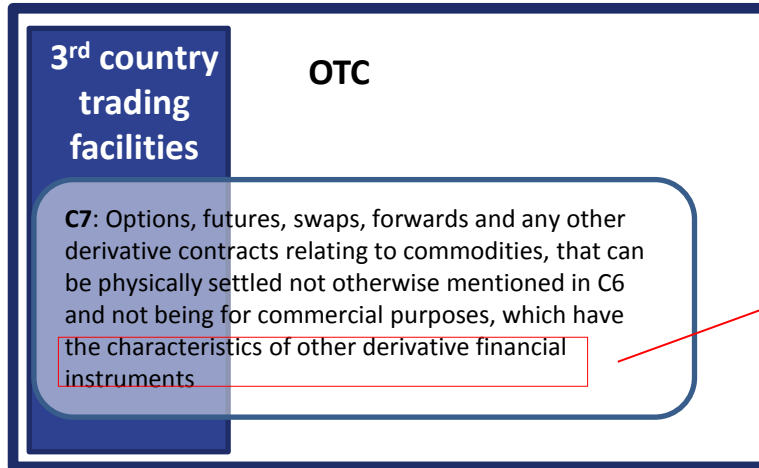

2 exemptions to C6:

- Permanent: “*wholesale energy products*” - derivatives with electricity and natural gas as underlying traded on an OTF and must be physically settled (under REMIT’s scope)
- Temporary & partial: “*C6 energy derivatives contracts*” - derivatives with coal or oil as underlying traded on an OTF and must be physically settled

ESMA’s mandate:

- Further clarify notion of “*must be physically settled*”
- Specify derivative contracts of “*wholesale energy products*” and “*C6 energy derivatives contracts*”

MiFID II scope: financial instruments – C7

Level 2 rules under MiFID I:
 Article 38, Regulation 1287/2006
 further develops notion of
*“characteristics of other derivative
 financial instruments”*

ESMA’s mandate:

- Determining if any changes required to the existing level 2 rules

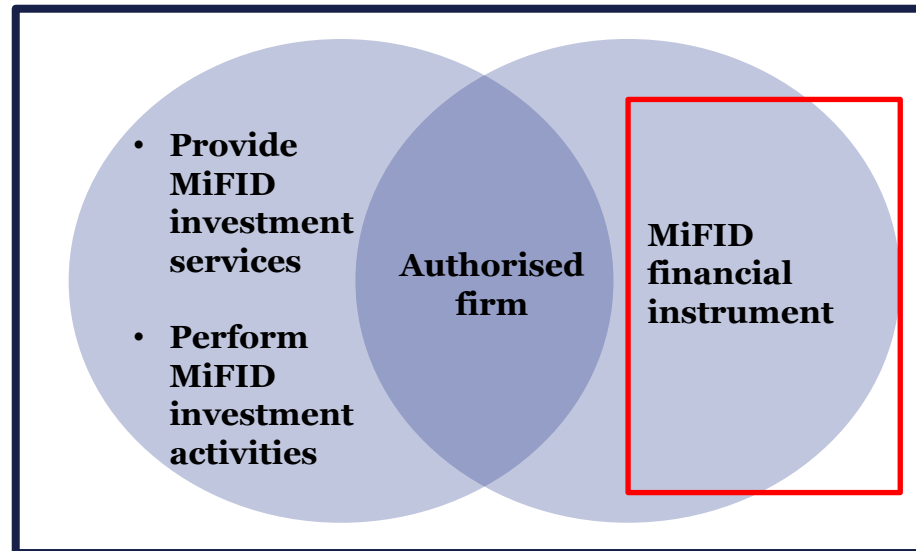

ESMA’s proposals:

- Delete reference to clearing criterion
- Retain standardisation criterion as it is
- Change trading criterion (Article 38(1)(a)(iii)) from a contract is *“expressly stated to be equivalent to a contract traded on”* a trading venue to a contract *“equivalent to a contract...”*
- Other contracts which should be considered as being for *“commercial purposes”*

- Transparency and liquidity

MiFID II scope – definition of financial instrument

- How we got here
- Scope of MiFID II
 - Ancillary activity
 - Definition of financial instruments
- **Position control framework**
 - **Position limits**
 - Position reporting
- Transparency and liquidity

Exemption to limits available for non-financial firms' hedging trades

Type of contract	Type of limit	Limit based on...	Obtain data from...
Physically settled	Spot	Capacity constraints/ deliverable supply	Volume supplied by trading venue that lists the contract
	All months	Open interest	Volume supplied by trading venue that lists the contract
Cash settled	Spot	Open interest	Volume supplied by trading venue that lists the contract
	All months	Open interest	Volume supplied by trading venue that lists the contract

	Factor	Affect on limits
1	Maturity	Longer the maturity, the higher the limit
2	Deliverable supply	Larger the deliverable supply, the higher the limit
3	Open interest	Larger the open interest, the higher the limit
4	Volatility	More volatile the market the lower the limit
5	Number and size of market participants	The more participants the lower the limit
6	Characteristics of underlying market	The more inflexible the market the lower the limit
7	New contracts	Higher limit in “nurturing” stages

Baseline = x% of deliverable supply

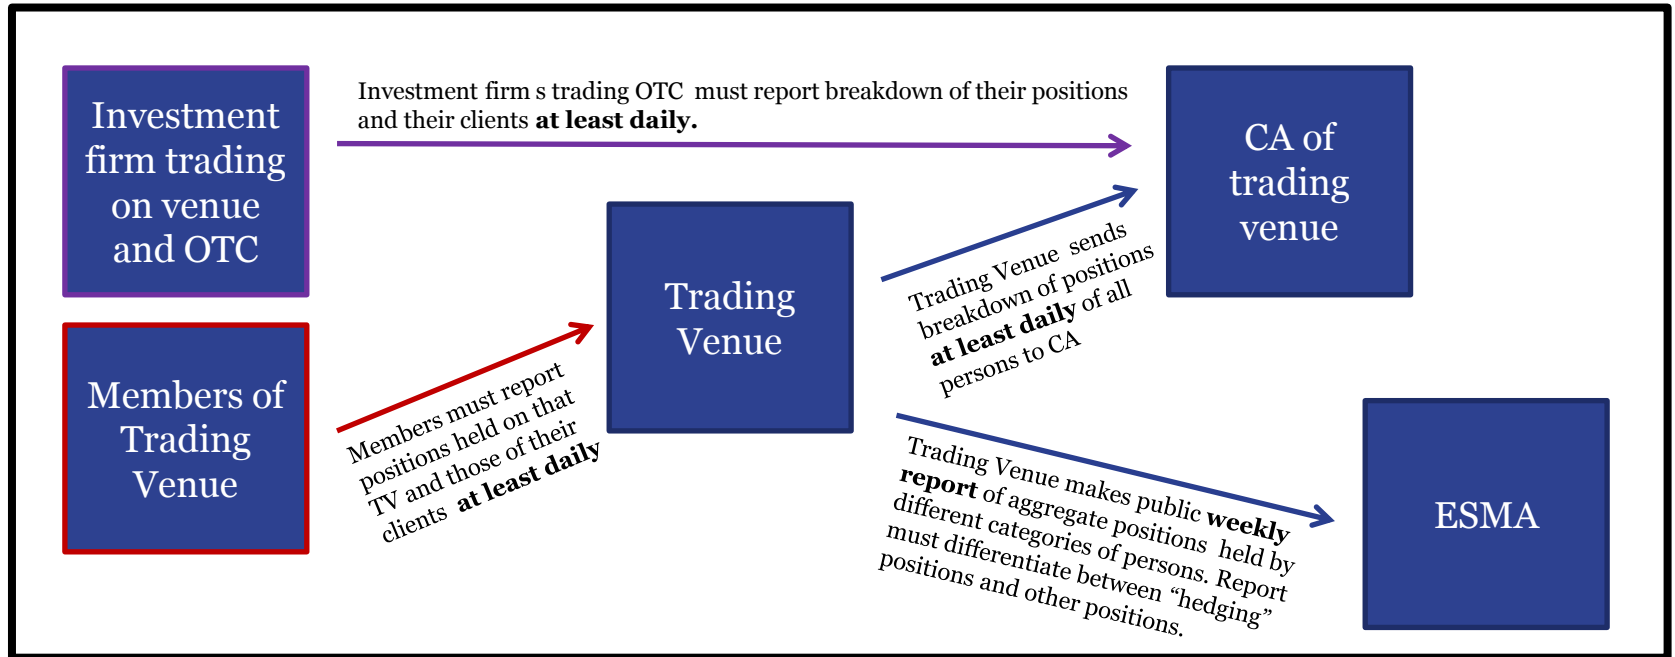

NCA can vary baseline by x% +/-

Metals Oil Coal Gas Power Agricultural products Freight Climatic variables Inflation rates & economic stats

{Name of trading venue}		{Date of the report}									
{Commodity derivative contract}											
Current week's report		Investment firms		Investment funds		Other financial institutions		Commercial undertakings		Emissions operators	
	Total	Long	Short	Long	Short	Long	Short	Long	Short	Long	Short
	{value}	{value}	{value}	{value}	{value}	{value}	{value}	{value}	{value}	{value}	{value}
Changes from last week's report (+/-)	{value}	{value}	{value}	{value}	{value}	{value}	{value}	{value}	{value}	{value}	{value}
Percentage of open interest	{value}	{value}	{value}	{value}	{value}	{value}	{value}	{value}	{value}	{value}	{value}
Number of position holders in each category	{value}	{value}	{value}	{value}	{value}	{value}	{value}	{value}	{value}	{value}	{value}

Proposals in the ESMA Consultation Paper

- **Threshold 1: total number of persons that hold a position in the contract**
 - More than 30 position holders in a given contract on a given trading venue
 - Where there are 4 or fewer position holders in a category, the number of position holders in that category will not be reported
- **Threshold 2: total size of open positions**
 - Exceeds a level of four times the deliverable supply

 - Definition of financial instruments
- Position control framework
 - Position limits
 - Position reporting
- **Transparency and liquidity**

	Component	ESMA's proposal in DP
1	Average frequency of transactions	Minimum number transactions and minimum number of active trading days.
2	Average size of transactions	Total turnover of period divided by number of trading days
3	Market participants (no./size, ratio to traded financial instrument)	Any member or participant of a trading venue being involved in at least one transaction in a given market
4	Average size of spreads (where available)	Use end-of-day relative bid/ask spreads as published by most relevant market in terms of liquidity

Proposed segmentation for commodity derivatives

Financial instrument	Product types	Sub-product types		Other potential liquidity sub-categories	Proposed metrics
Commodity Derivatives	Metals (ME)	Precious (PR)	Gold	Transaction type (Spot fwd / Swap / Option / Loan lease / Exotic / Transmission) Underlying Deliverable currency Settlement type (physical vs cash)	Notional amount of traded contracts (i.e. number of contracts * contract value) Note: Number of contracts could be "1"
