

Welcome and introduction

Ann Tutwiler
Director General of
Bioversity international

19 June 2015
EU Pavilion at Expo Milan

European
Commission

Objectives

Kick-start the discussion on a long term strategy for the future of EU agriculture research and innovation

Contribute to the discussion on outcomes of EXPO on 'Feeding the planet-energy for life'

MILANO 2015
FEEDING THE PLANET
ENERGY FOR LIFE

Questions for discussion

Is the proposed organisation based on five building blocks relevant and useful to structure our approach for a long-term strategy?

Are the most important aspects properly highlighted and is the attention on the right issues?

Questions for discussion

What is the underpinning knowledge needed?

What are the core research questions?

Where do we need more basic versus applied research?

At which scale should we work?

Are there needs for systems driven innovation?

Roll-out of the day

Opening session

Session 1: A research agenda to produce more sustainably

Session 2: A research agenda for innovative rural areas

Panel session: How to build a long-term strategy?

Closure: What are the next steps?

Practical

Interpretation:

1- Italian

2- English
