

Monitoring EU Agri-Food Trade: Development until July 2016

July 2016 – moderate slowdown in EU agri-food trade

The monthly value of EU agri-food exports in July 2016 reached EUR 10.5 billion and, thus, slowed down by almost EUR 700 million compared to the high performance in July 2015 and also was slightly lower than in June 2016.

Most important reductions in export values (July 2016 compared to July 2015) were noted for **Hong Kong** (EUR -83 million), **Russia** (EUR -81 million) and **Algeria** (EUR -74 million). On the other hand, exports to some Asian (India, China, Philippines, Vietnam) and North-East African (Sudan, Ethiopia, Libya) destinations increased compared to last year's data for July.

While export values for wheat increased in July 2016 compared to 2015, exports of other cereals went down. For the cereals marketing year 2015/16 the EU was the first exporter in the world market, both for soft wheat and barley.

The highest increases in monthly export values were again achieved for **pork** (+30%), followed by fresh, chilled or dried vegetables, while exports of wine, raw hides and skins, and milk powder lost in July 2016.

In July 2016, agri-food imports to the EU went down by EUR 940 million, even more than exports, thus leading to a **further increase in the monthly net trade surplus** from EUR 1.8 billion in July 2015 to EUR 2.1 billion in July 2016.

12-month period: Pig meat exports recovering

For the 12-months period August 2015 to July 2016, EU agri-food exports reached a value of more than EUR 128 billion, corresponding to an increase by 0.7% in value terms compared to the same period one year ago.

Major gains were achieved in values of agri-food exports to the **USA** (EUR + 1.8 billion; +10%) and **China** (EUR +1.6 billion; +17%), followed by increases in exports to **Saudi Arabia** (EUR +0.4 billion). Agri-food exports to Israel, Vietnam, Switzerland and Australia each increased by EUR 200 million or more in the twelve-months period. In contrast to the increase in export values to China, exports to Hong Kong went down by EUR 1.2 billion (-26%). Export values to **Russia** continued to go down from EUR 6.2 billion (August 2014 to July 2015) to EUR 5.5 billion (July 2015 to June 2016), i.e. a reduction in values by 12.5%, but also exports to Algeria and Egypt went down over this period.

Analysing the performance over the last twelve months per product category, export values increased in particular for **pig meat** (EUR +1.1 billion; +29% compared to export values in the 12-months period one year ago), fresh, chilled or dried **vegetables** (EUR +445 million; +17%), **live animals** (EUR +427 million; +20%) and **wine** (EUR +313 million; +3%). In relative terms, high increases in export values were also seen for butter and fresh milk products, as well as for bovine meat.

Raw hides and skins (EUR -1.3 billion; -42%), **wheat** (EUR -1.1 billion; -15.5%) and **milk powders** (EUR -703 million; -16%) lost most in export values over the last 12 months. Reductions in export revenues were also noted for other cereals, poultry meat and fresh fruit.

(extraction date for statistics: 14/09/2016)

Ukraine, Ivory Coast and Argentina with top increases in agri-food exports to EU

Agri-food imports from third countries in the period August 2015 to July 2016 came into the EU at a value of EUR 112 billion, i.e. an increase by 2% compared to the same period one year ago. The export surplus for the 12-months period stands at almost EUR 16.4 billion, about EUR 1.3 billion lower than one year ago.

Over the last 12 months, EU agri-food imports from **Ukraine** showed the highest increase in value terms (EUR +885 million; +25%). Import values also went up remarkably for **Ivory Coast** by EUR +691 million (+25%), **Argentina** by EUR 529 million (+10%). Peru (EUR +293 million; +17%), Australia (EUR +223 million; +12%), Colombia (EUR +211 million) and Turkey (EUR +205 million) followed in our ranking for the most dynamic origins for EU agri-food imports.

The most important reductions in import values were recorded for **Brazil** (EUR -1.5 billion), **Indonesia** (EUR -496 million) and **Tunisia** (EUR -206 million). The USA, contrary to previous periods, lost in export performance to the EU (EUR -156 million; -1.4%).

Looking at imports per product category, the highest increase in values over the last 12 months was for **tropical fruit, nuts and spices** (EUR +931 million; +8%). Imports also increased particularly for cocoa beans (EUR +786 million; +22%), cereals other than wheat (EUR +697 million), oilseeds other than soya beans (EUR +570 million; 21%) and for vegetable oils, other than palm and olive oil, fresh vegetables, citrus and other fresh fruit.

On the other hand, import values decreased in particular for commodities such as unroasted **coffee** and **tea** in bulk (EUR -1 billion; -12.5%), oilcakes (EUR -867 million; -10%), palm oil, palm kernel and coconut oil (EUR -496 million; -9%).
