

Monitoring EU Agri-Food Trade: Development until November 2016

November 2016 – EU agri-food exports again at record level

The monthly value of EU agri-food exports in November 2016 reached a new record level of EUR 11.7 billion, which is EUR 813 million higher than in November 2015, and about EUR 1.5 billion higher than in the same month of previous years.

Highest increases in monthly export values (November 2016 compared to November 2015) were recorded for the **USA** (EUR +146 million) and **China** (EUR +117 million), but also exports to Japan and South Korea increased significantly. EU agri-food exports to **Russia** also recovered in November by EU 50 million year on year.

Export values went down in particular to Saudi Arabia (EUR -47 million), Algeria, (EUR -45 million), Nigeria, and Egypt.

The highest increases in monthly export values compared to the previous year were achieved for **pork** (EUR +129 million), **spirits and liqueurs** (EUR +92 million), and **wine** (EUR +82 million).

On the other hand, monthly export values in November 2016 compared to November 2015 went down in particular for wheat and other cereals.

In November 2016, agri-food **imports** to the EU increase to a value of EUR 9.85 billion from EUR 9.6 billion in November 2015. The highest increase in monthly import values was from the USA, Ivory Coast and Vietnam, while import values from Brazil and Ukraine went down most.

Further boost in pigmeat exports in November 2016

For the 12-months period December 2015 to November 2016, EU agri-food exports reached a value of EUR 130.7 billion, corresponding to an increase by 2% in value terms compared to the same period one year ago.

Major gains were achieved in values of agri-food exports to the **USA** (EUR + 1.5 billion; +8%) and **China** (EUR +1.1 billion; +11%), although exports to Hong Kong went down significantly. Increases were also recorded in agri-food exports to **Japan** (EUR +0.4 billion) and **Vietnam** (EUR +339 million). Exports to Morocco, Israel, Australia, Norway, and Switzerland, each increased by more than EUR 200 million in the twelve-month period.

Exports to **Russia** further went down, from EUR 5.6 billion (Dec 2014 to Nov 2015) to EUR 5.5 billion (Dec 2015 to Nov 2016), i.e. a reduction in values by 2%. Thus, Russia remains on rank number 5 of EU export destinations for agri-food products, behind the USA, China, Switzerland and Japan. On the year-on-year basis, export values reduced even more importantly than for Russia to destinations such as Hong Kong (EUR - 0.9 billion), Algeria (EUR - 0.6 billion) and Egypt (EUR -0.4 billion).

Analysing the EU export performance per product category over the last twelve months, export values reflect in particular the recovery in **pig meat** exports (EUR +1.3 billion; +34% compared to export values in the 12-months period one year ago), **meat offal**, other meat and fat (EUR +0.5 billion; +21%), **olive oil** (EUR +483 million; +22%), and **fresh vegetables** (EUR +381 million; +14%). In relative terms, high increases in export values were also seen for oilseeds (+31%) and butter (+25%).

Similar to the development recorded for previous periods, **raw hides and skins** (EUR -1.2 billion; -41%), **other cereals** (EUR -947 million; -33%), **milk powders** (EUR -629 million; -15%) and **wheat** (EUR -397 million; -6%) lost most in export values over the last 12 months.

EU trade surplus in agri-food at EUR 19 billion over 12 months

Agri-food imports from third countries in the 12-months period December 2015 to November 2016 came into the EU at a value of EUR 112 billion, i.e. a decrease by 0.9% compared to the same period one year ago. The export surplus for the 12-months period thus increased to almost EUR 19 billion.

On the year-on-year basis, the value of agri-food imports from **Ivory Coast** increased most (EUR +403 million, +13%). Despite a reduction in the month of November 2016, imports from **Ukraine** also showed an important increase in annual value (EUR +224 million; +6%). Over the 12 months period, EU import values for agri-food products also went up for **Peru** (EUR +204 million; +11%), **Ghana** (EUR +147 million; +10%), **Vietnam** (EUR +139 million; +6%), **Argentina** (EUR +136 million; +2%) and **Australia** (EUR +120 million; +6%).

On the other hand, the value of agri-food imports from **Brazil** decreased by EUR 1.4 billion (-10.5%) and imports from other important suppliers, the USA, Turkey, Indonesia, India and Malaysia went down compared to the previous 12 months period.

Looking at imports per product category, the highest increase in values over the last 12 months was for **cocoa beans** (EUR +694 million; +17%). Imports also increased in particular for vegetable oils other than palm and olive oil (EUR +428 million; +23%), oilseeds other than soya beans (EUR +373 million; +12.5%), fresh vegetables (EUR +313 million; 7%) and citrus fruit (EUR +308 million; +18%).

On the other hand, import values decreased in particular for commodities such as **oilcakes** (EUR -1.2 billion; -14%), unroasted **coffee** and tea in bulk (EUR -0.8 billion; -9%), and other goods such as olive oil (EUR -435 million; -59%), as well as for raw tobacco and for wheat.

(extraction date for statistics: 13/01/2017)

Focus on: EU agri-food trade with Ecuador

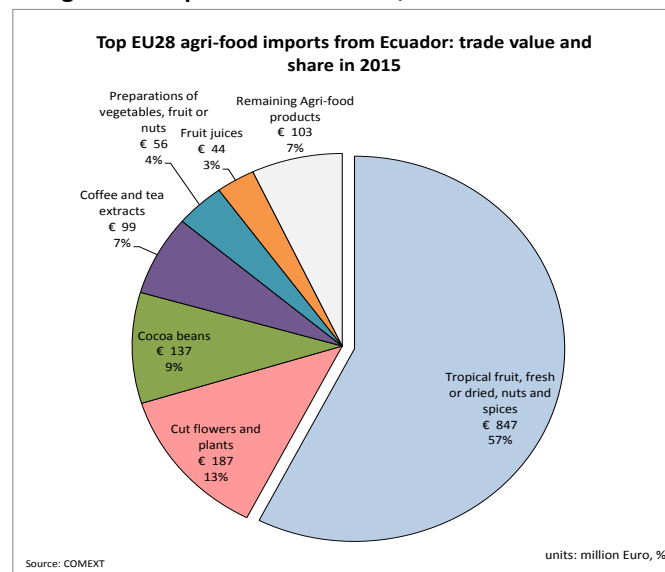

In January 2017 the Protocol of Accession of Ecuador to the EU Trade Agreement with Colombia and Peru entered into force provisionally. The EU is the third largest trading partner for the Andean countries and a net-importer of agri-food products from Ecuador.

The EU net-deficit in agri-food trade with Ecuador has increase to EUR 1.4 billion in 2015.

The 2015 value of EU agri-food exports to Ecuador reached a total of EUR 87 million, with main focus on food preparations, pet food, infant food, vegetable and fruit preparations, and olive oil. The annual value of EU exports to Ecuador has been stagnating over recent years.

EU imports from Ecuador amounted to almost EUR 1.5 billion (2015), already increasing for the last three years, even before the trade agreement entered into force.

EU agri-food imports from Ecuador, 2015

The most important EU import products from Ecuador are tropical fruit, nuts and spices, as well as cut flowers, cocoa beans and coffee.

Structure of EU Agri-food trade with Ecuador, 2005 - 2015
