

Monitoring EU Agri-Food Trade: Development until February 2018

February 2018: a further increase in EU agri-food trade surplus

The monthly value of EU agri-food exports in February 2018 decreased slightly to almost **EUR 10.5 billion**. With agri-food imports to the EU decreasing faster to a monthly value of **EUR 8.7 billion**, the monthly trade balance increased to a surplus of EUR 1.7 billion, compared to a surplus of EUR 1.3 billion in February 2017.

Highest increases in monthly export values (Feb 2018 compared to Feb 2017, EUR million) were recorded for **Turkey** (+63), **Brazil** (+19) and **Singapore** (+19). Monthly exports fell to the **USA** (-60), **South Africa** (-41), **United Arab Emirates** (-40) and **Switzerland** (-39).

By sector, the highest export growth (EUR million) was achieved in **sugar** (+60), **wine and wermouth** (+44), **infant food** (+36) and **raw hides and skins** (+34).

Wheat exports dropped most (EUR -114 million); exports of **vegetables** (-56), **food preparations, nowhere else specified** (-52) and **vegetable oils** (-51) also fell.

The value of February 2018 EU agri-food imports compared to February 2017 increased most for imports from **Malaysia** and **Tunisia**. The value of imports from the **USA**, **Brazil** and **Indonesia** went down most. Major decreases were seen in imports of **unroasted coffee**, **cocoa beans** and **vegetables**, while imports of **olive oil** and **fatty acids and waxes** were the ones increasing most in value terms.

Wine & spirits, dairy exports go up, offset decrease in cereals, pork and fruit & vegetables

For the 12-months period of March 2017 to February 2018, EU agri-food exports reached a value of EUR 138.0 billion, corresponding to a sustained increase by 4.1% in value terms compared to the same period one year ago.

Major gains in annual values have been achieved in agri-food exports to the **USA** (EUR +0.9 billion; +4%), **Russia** (EUR +0.7 billion; +13%) and several **Asian markets**: Japan (EUR +0.6 billion; +10%), Hong Kong (EUR +0.3 billion; +8%), China (EUR +0.3 billion; +3%) and Philippines (EUR +0.3 billion; +26%). Further annual increases were recorded in agri-food exports to Turkey (EUR +0.6 billion; +18%) and Ukraine (EUR +0.3 billion; +18%) while increases of more than EUR 0.2 billion also took place in exports to Korea, Nigeria, Australia, Serbia, Singapore and Switzerland in the last twelve-month period.

Annual export values remain down for **North African** and **Middle East** destinations, in particular Saudi Arabia (EUR -0.5 billion; -12%), Vietnam (EUR -0.3 billion; -22%), Egypt (EUR -0.3 billion; -20%), the United Arab Emirates (EUR -0.3 billion; -10%), Algeria (EUR -0.2 billion; -8%) and Libya (EUR -0.2 billion; -17%). Agri-food exports to Morocco and Tunisia also went down over the last twelve-month period.

Wine (EUR +1.1 billion; +10%), **infant food** (EUR +756 million; +11%) and **milk powder** (EUR +751 million; +21%) exports have been performing very well over the last twelve months. Export performance on a yearly basis also increased by EUR 575 million for pet food and by EUR 504 million for spirits and liqueurs. Of particular notice are the exports of sugar, which increased notably, by 55% or EUR 363 million.

On the other hand, **wheat** and **pork** exports experienced the biggest drop in value terms on an annual basis (respectively EUR -1.3 billion or -26% and EUR -387 million or -7%). Only three other categories recorded notable losses (over EUR 100 million) in export values over the last 12 months: Fresh, chilled and dried vegetables, Cereals (excluding wheat and rice) and Fresh or dried fruit (excluding citrus and tropical fruit).

EU agri-food imports increasing, but net trade surplus still growing

Agri-food imports from third countries in the 12-months period between March 2017 to February 2018 accounted for EUR 116.7 billion, i.e. an increase by 2.5% compared to the same period one year ago. Nevertheless, driven by the stronger export performance over the 12-months period, **the export surplus** now stands at **EUR 21.3 billion** (+EUR 2.6 billion; +14%).

Main origins for EU agri-food imports over the past 12 months are **Brazil** (EUR 11.8 billion), the **USA** (EUR 10.6 billion), Ukraine (EUR 5.6 billion), followed by Argentina, China, Indonesia, Switzerland and Turkey, each accounting for between EUR 4.5 and 5.5 billion.

On the year-on-year basis, the value of agri-food imports from the two top Latin American import origins went down. Imports from **Argentina** (EUR -433 million or -7%) decreased most, followed by decrease in imports from **Brazil** (EUR -340 million or -3%). Some other key partners also experienced reductions both in absolute and relative terms, most notably **Ghana** (EUR -419 million or -25%), the USA (EUR -374 million), Ivory Coast (EUR -247 million) and Uruguay (EUR -214 million).

On the other hand, the value of imports from **Ukraine, India** and **Indonesia** increased most significantly (EUR +1.4 billion or +32%, EUR 681 million or +24%, and EUR 655 million or +15%, respectively). Over the 12 months period, EU import values for agri-food products also went up for China, Australia and Vietnam.

Looking at product categories, the highest increases in import values over the last twelve months were recorded for **cereals (excluding wheat and rice)** (EUR +916 million; +40%), fatty acids (EUR +823 million; +48%) and tropical fruit (EUR +779 million; +6%). However, import values decreased in particular for **cocoa beans** (EUR -1.1 billion; -23%) and soya beans (EUR -659 million; -12%).

This monthly newsletter again provides a table in the annex, presenting the **trade balance** and its development by product category. The largest gains in net exports were achieved in **wine**, with the biggest losses for **wheat**. At the same time net imports increased most for **other cereals** and decreased most for **cocoa beans**.
