**COUNCIL REGULATION (EC) No 515/97  
of 13 March 1997**

**on mutual assistance between the administrative authorities of the Member States and cooperation between the latter and the Commission to ensure the correct application of the law on customs and agricultural matters**

THE COUNCIL OF THE EUROPEAN UNION,

Having regard to the Treaty establishing the European Community, and in particular Articles 43 and 235 thereof,

Having regard to Council Regulation (EEC) No 729/70 of the Council of 21 April 1970 on the financing of the common agricultural policy <sup>(1)</sup>, and in particular Article 8 (3) thereof,

Having regard to the proposal from the Commission <sup>(2)</sup>,

Having regard to the opinion of the European Parliament <sup>(3)</sup>,

Having regard to the opinion of the Economic and Social Committee <sup>(4)</sup>,

Whereas combating fraud in the context of the customs union and the common agricultural policy calls for close cooperation between the administrative authorities responsible in each Member State for the application of provisions adopted in those fields; whereas it also calls for appropriate cooperation between these national authorities and the Commission, which is responsible for ensuring the application of the Treaty and the provisions adopted by virtue thereof; whereas effective cooperation in this field strengthens the protection of the financial interests of the Community;

Whereas rules should therefore be drawn up whereby the Member States' administrative authorities assist each other and cooperate with the Commission in order to guarantee the proper application of customs and agricultural regulations and legal protection for the Community's financial interests, in particular by preventing and investigating breaches of those regulations and by investigating operations which are or appear contrary to those regulations;

Whereas Council Regulation (EEC) No 1468/81 of 19 May 1981 on mutual assistance between the administrative authorities of the Member States and cooperation between the latter and the Commission to ensure the correct application of the law on customs or agricultural matters <sup>(5)</sup> established close cooperation between the said authorities and the Commission; whereas that system has proved effective;

Whereas it is nevertheless necessary, in the light of the experience gained, to replace Regulation (EEC) No 1468/81 in its entirety with the aim of strengthening cooperation both among the administrative authorities of the Member States responsible for the application of the provisions adopted in the field of customs union and the common agricultural policy and between those authorities and the Commission; whereas, to that end, new rules should be laid down at Community level;

Whereas the introduction of Community provisions on mutual assistance between Member States' administrations and their cooperation with the Commission in order to guarantee the proper application of customs or

agricultural regulations is without prejudice to the application of the 1967 Convention for mutual assistance between customs administrations in fields which remain the sole province of the Member States; whereas these Community provisions are not such as to affect the application in the Member States of rules on judicial cooperation in criminal cases;

Whereas, furthermore, the general Community rules establishing a system of mutual assistance and cooperation among the administrative authorities of the Member States and between them and the Commission do not apply where they overlap with those laid down by specific regulations, save where the general rules improve or reinforce administrative cooperation; whereas, in particular, the implementation of the customs information system does not in any way affect the Member States' obligations to provide information to the Commission, laid down *inter alia* under Regulations (EEC, Euratom) No 1552/89 <sup>(1)</sup> and (EEC) No 595/91 <sup>(2)</sup>, or the established use of fraud information sheets to circulate information of Community interest;

Whereas greater cooperation between the Member States requires the coordination of enquiries and other activities carried out by the bodies concerned; whereas it is therefore essential that the Commission should be given more detailed information concerning such activities by the Member States;

Whereas the Commission must ensure that economic operators are treated equally and that the application by the Member States of the mutual administrative assistance system does not lead to discrimination between economic operators in different Member States;

Whereas it is appropriate to define the Member States' obligations under the mutual administrative assistance system in respect of cases in which representatives of the Member States' national administrations conduct enquiries concerning the application of customs or agricultural legislation with a mandate from, or under the authority of, the legal authorities;

Whereas the powers of national representatives conducting enquiries in other Member States should be defined; whereas provision should also be made for Commission representatives to be present, where justified, at national enquiries concerning mutual administrative assistance, and for their powers to be defined;

Whereas it is necessary for the successful functioning of administrative cooperation that the Commission be informed of information exchanged between Member States and third countries in cases of particular interest for the Community;

Whereas, with a view to securing the rapid and systematic exchange of information forwarded to the Commission, there is a need to set up a computerized customs information system at Community level; whereas in that context sensitive data concerning frauds and irregularities in the customs and agricultural domains should be stored in a central database accessible to the Member States, while ensuring that the confidential nature of the information exchanged, in particular data of a personal nature, is respected; whereas, given the justifiable sensitivity of the issue, there should be clear and transparent rules to protect the freedom of the individual;

<sup>(1)</sup> Council Regulation (EEC, Euratom) No 1552/89 of 29 May 1989 implementing Decision 88/376/EEC, Euratom on the system of the Communities' own resources (OJ No L 155, 7.6.1989, p. 1). Regulation last amended by Regulation (EC, Euratom) No 2729/94 (OJ No L 293, 12.11.1994, p. 5).

<sup>(2)</sup> Council Regulation (EEC) No 595/91 of 4 March 1991 concerning irregularities and the recovery of money wrongly paid in connection with the financing of the common agricultural policy and the organization of an information system in this field and repealing Regulation (EEC) No 283/72 (OJ No L 67, 14.3.1991, p. 11).

**▼B**

Whereas customs authorities have daily to apply both Community and non-Community provisions; whereas it is therefore desirable to have available a single infrastructure for applying these provisions;

Whereas the information exchanged may concern physical persons and this Regulation must therefore implement, in its scope, the principles of protection of persons with regard to processing, by automatic means or otherwise, of personal data; whereas these principles, as set out in Directive 95/46/EC of the European Parliament and of the Council of 24 October 1995 on the protection of individuals with regard to the processing of personal data and on the free movement of such data <sup>(1)</sup> should themselves, in compliance with the terms and conditions of this Directive, be specified and supplemented in this Regulation; whereas pending implementation of the national measures transposing that Directive certain Member States which have no protection rules for personal data exchanged by non-automatic means should be exempted from applying the provisions of this Regulation concerning the non-automatic exchange of data;

Whereas, in order to take part in the Customs Information System, the Member States and the Commission must adopt legislation on the rights and freedoms of individuals with regard to the processing of personal data; whereas, pending implementation of the national measures transposing Directive 95/46/EC, it is important that the Member States and the Commission guarantee a level of protection based on the principles contained in that Directive;

Whereas, in order to ensure that the rights of the persons concerned are sufficiently protected, there needs to be a guarantee of independent supervision of the processing of the personal data in the Customs Information System both a Member State level and in respect of the Commission;

Whereas the Commission, in close cooperation with the Member States, should facilitate the installation and management of computer systems in the Member States;

Whereas the Commission should be notified of legal and administrative proceedings brought for infringements of the law on customs or agricultural matters;

Whereas, with the aim of implementing certain provisions of this Regulation, enabling the installation and functioning of the Customs Information System and examining possible problems in connection with the development of administrative cooperation as provided for in this Regulation, it is necessary to establish a Committee;

Whereas the provisions of this Regulation refer both to the application of the rules of the common agricultural policy and to the application of customs legislation; whereas the system set up under this Regulation constitutes an integral Community entity; whereas, since the provisions of the Treaty specifically covering customs matters do not empower the Community to set up such a system, it is necessary to invoke Article 235,

HAS ADOPTED THIS REGULATION:

*Article 1*

This Regulation lays down the ways in which the administrative authorities responsible for implementation of the legislation on customs and agricultural matters in the Member States shall cooperate with each other and with the Commission in order to ensure compliance with that legislation within the framework of a Community system.

That directory shall be directly accessible to those authorities.

2. In managing that directory, the Commission shall be empowered:

- (a) to access or extract the contents of the data, by any means or in any form, and to reuse data in compliance with legislation applicable to intellectual property rights; the terms and procedures for data access or extraction shall be governed by a technical arrangement between the Commission, acting on behalf of the Community, and the service provider;
- (b) to compare and contrast data that are accessible in or extracted from the directory, to index them, to enrich them from other data sources and to analyse them in compliance with Regulation (EC) No 45/2001 of the European Parliament and of the Council of 18 December 2000 on the protection of individuals with regard to the processing of personal data by the Community institutions and bodies and on the free movement of such data <sup>(1)</sup>;
- (c) to make the data in this directory available using electronic data-processing techniques to the authorities referred to in Article 1(1).

<sup>(1)</sup> OJ L 8, 12.1.2001, p. 1.
