TWIN-PORT 3

2017-EU-TM-0135-W

Programme:

CEF Transport

Transport corridor:

North Sea - Baltic, Scandinavian - Mediterranean

Transport mode:

Maritime

Call year:

2017

Location of the Action:

Estonia, Finland

Implementation schedule:

June 2018 to December 2023

Maximum EU contribution:

EUR 14,757,255

Total eligible costs:

EUR 49,190,850

Percentage of EU support:

30%

Coordinator:

AS Tallinna Sadam (Estonia)

The Action is part of a global project aiming at fostering cross-border cooperation between Finland and Estonia through the upgrade of an existing Motorways of the Sea link between the core ports of Helsinki and Tallinn. These ports play a key role in the European transport network and connect the North Sea – Baltic to the Scandinavian-Mediterranean core network corridors. The present Action aims at upgrading the efficiency of this maritime link and will result in reducing the environmental externalities of RoRo traffic sailing the route as well as upgrading the infrastructure and connections between these ports and their hinterlands. Moreover, it is a continuation of the previously funded CEF-T "TWIN-PORT II" and TEN-T "TWIN-PORT" Actions. The Action will, in the Port of Helsinki, construct a new multimodal terminal for bus traffic, a side ramp at the Katajanokka terminal, lengthening of the AP pier, as well as the provision of On-Shore Power Supply (OPS) and automooring. Finally, the last mile connections between the port and the city will be improved. In the Port of Tallinn, the Action will involve the construction of sewerages in the terminal area enabling the utility network to receive discharges from vessels in quays no 5, 7 and 8 as well as safety and security upgrades in Terminals A and D as well as the port property.
