

# Erasmus+ for higher education in Chile

## What is Erasmus+ ?

Erasmus+ is the European Union (EU) programme for education, training, youth and sport for the period 2014-2020. Erasmus+ funds academic mobility and cooperation projects that involve partners from "Programme Countries" and "Partner Countries" throughout the world. In 2019, 34 Programme Countries comprise the 28 EU Member States plus six other European countries\*. Erasmus+ supports activities that are closely matched with the EU's priorities for cooperation policy with partner countries and regions. These factsheets look at the extent of an individual country's involvement in this international dimension of Erasmus+ since the programme started in 2014.

## International credit mobility (ICM)

For over 30 years, students and staff have moved between European universities in the Erasmus programme. Since 2015, Erasmus+ has also allowed short-term mobility to Europe from other parts of the world for students, researchers, and staff. This two-way mobility allows students to study in a foreign university for 3-12 months and obtain credits which are then recognised at the sending institution as part of their degree. Starting in 2018, traineeships are also possible. There are also grants for staff mobility of 5-60 days.

There are distinct budgets for different regions of the world that are divided between all the European countries. Programme-Country institutions make up bilateral partnerships with universities from Latin American countries and apply on behalf of their partners.

## Erasmus Mundus Joint Master Degrees

Erasmus Mundus Joint Master Degrees (EMJMDs) award EU-funded scholarships to Master students from around the world that cover covering tuition, travel, and a living allowance. The programmes last from one to two years during which students study in at least two different European countries, and obtain a joint, double degree, or multiple degree. Institutions from partner countries can also be part of the consortia that deliver these programmes (though this is not obligatory) as Full Partners, which means they officially award degrees, or as Associated Partners, where they participate in the programme in some kind of capacity, but do not award the actual joint degree.

### Capacity-building for Higher Education

Erasmus+ Capacity Building in Higher Education action (CBHE) projects, which last from two to three years, are aimed at modernising and reforming higher education institutions, developing new curricula, improving governance, and building relationships between higher education institutions and enterprises. They can also tackle policy topics and issues, preparing the ground for higher education reform, in cooperation with national authorities. Around 14% of the annual global budget for CBHE projects is earmarked for Latin American countries.

### Jean Monnet Activities

Jean Monnet (JM) activities aim to develop EU studies worldwide. For over 25 years they have been supporting Modules, Chairs, and Centres of Excellence to promote excellence in teaching and research on the European integration process at higher education level. The programme also supports policy debate with the academic world through networks and a number of associations in the domain of EU studies.
