Subject: 2021 annual report on general surveillance of genetically modified organisms

Dear [REDACTED]

We are responding to CropLife Europe and its member companies regarding the general surveillance of genetically modified organisms (GMOs) that have been authorised for placing on the market in the EU and in Great Britain, according to Directive 2001/18/EC and/or Regulation (EC) No 1829/2003. We recognise our organisations' role in the supply chain to facilitate the notification by operators of any observed unanticipated adverse effects of GMOs on human and animal health or the environment.

In view of the above, **COCERAL and UNISTOCK** have undertaken the necessary steps to

- Inform and remind their member organisations and companies on an annual basis
 - to monitor for potential unanticipated adverse effects
 - that, in the framework of their management or safety standards (ISO, HACCP, ...), procedures must be in place and implemented to limit losses and spillage of viable GMOs and to routinely eradicate adventitious populations on their premises
 - to inform and remind their own member companies of this requirement
 - to report back any adverse effect reported to them to the European trade associations.
- Report to the authorisation holders directly or via CropLife Europe
 - at least annually, regardless whether an adverse effect was observed or not
 - immediately any adverse effects reported to them.

For the authorised GMO(s) listed in the Annex, **COCERAL and UNISTOCK** have alerted their members to the product and safety information made available by the authorisation holder(s) via CropLife Europe's operator website, including any information regarding the general surveillance of the listed product(s).

COCERAL and UNISTOCK have been collating reports of potential adverse effects resulting from the placing on the market of these products, which may have come to the attention of their members.

To date, **COCERAL and UNISTOCK** confirm that throughout the reporting period and based on their annual reminder to their member organisations and companies, no observed adverse effects have been reported from the monitoring by their members.

Yours sincerely,

List of GMOs authorised for placing on the market in the EU and/or Great Britain in accordance with Directive 2001/18/EC and/or Regulation (EC) No 1829/2003, and for which general surveillance is required (List provided by CropLife Europe):
