Panel discussion

- What is (are) the biggest challenge(s) in your view for an efficient implementation of the measures aiming to fight AMR under the new VMP Regulation?
- Which area(s) of your NAPs require the most investment in order to be more efficient in terms of AMR fight?
- Which incentives according to you are the most efficient in support of the development of new antimicrobials?
- What should the new Joint Action on AMR cover?
- Which action(s) do you think would have the biggest impact on the appropriate use of antibiotics:

Revamping of the AMR OHN

- From the five key-areas identified in the roadmap for action, which ones do you think should be addressed as a priority?
- One of the conclusions from the case study report has been that implementation of One Health in practice seems to be still in infancy. Which of the following do you think can better facilitate implementation of One Health in practice?

Panel discussion

What is (are) the biggest challenge(s) in your view for an efficient implementation of the measures aiming to fight AMR under the new VMP Regulation?

085

(1/2)

1. Scarce resources to implement the new rules
 3.98
2. Lack of a One Health approach for collaboration across sectors
 3.11
3. Lack of awareness of farmers on the new rules
 1.68
4. Lack of awareness of veterinarians on the new rules
 1.22
5. Lack of awareness of the aqua/agriculture industry on the new rules
 1.15

What is (are) the biggest challenge(s) in your view for an efficient implementation of the measures aiming to fight AMR under the new VMP Regulation?

(2/2)

0 8 5

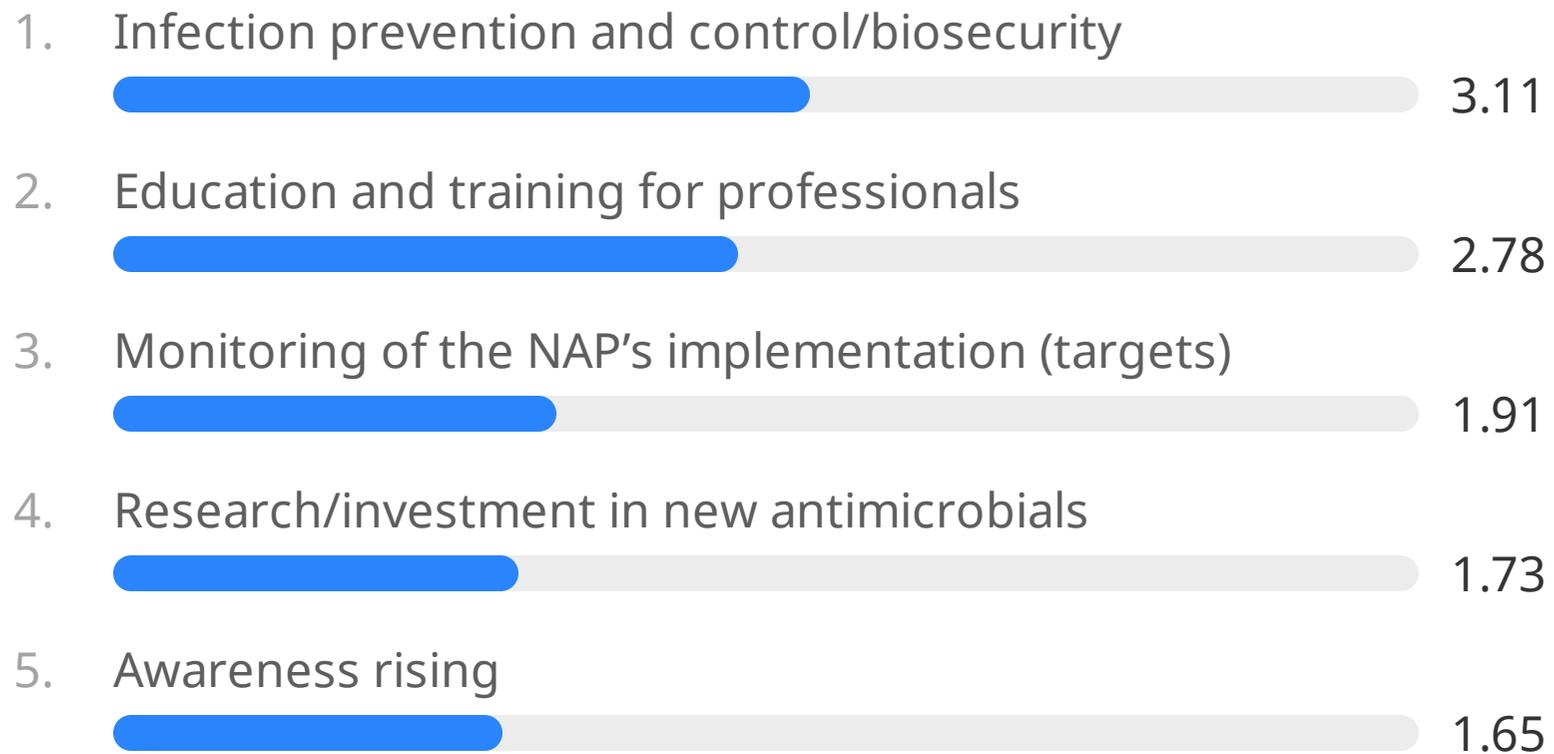

6. Lack of awareness of pet owners on the new rules

Which area(s) of your NAPs require the most investment in order to be more efficient in terms of AMR fight?

089

(1/2)

Which area(s) of your NAPs require the most investment in order to be more efficient in terms of AMR fight?

(2/2)

0 8 9

6. Coordination

Which incentives according to you are the most efficient in support of the development of new antimicrobials?

076

1. Netflix/subscription model - governments pay for keeping new and old antimicrobials on the market
 2.22
2. Additional market protection for novel antimicrobials
 1.96
3. Pay or play model - hold an antimicrobials in the portfolio or pay to a fund
 1.41
4. Transferable voucher for new antimicrobials
 1.17

What should the new Joint Action on AMR cover?

077

Which action(s) do you think would have the biggest impact on the appropriate use of antibiotics:

0 8 9

(1/2)

1. All antibiotics should be available only with a prescription
 3.43
2. All antibiotics for systemic use should be prescribed only after bacterial infection is confirmed with a diagnostic test
 2.54
3. Education and the EU awareness campaign on the appropriate use of antibiotics
 1.83
4. All antibiotics should be dispensed and divided up in a personalized manner to each patient
 1.73

Which action(s) do you think would have the biggest impact on the appropriate use of antibiotics:

0 8 9

(2/2)

5. Information from your pharmacist/doctor what to do with unused and/or expired antibiotics

Revamping of the AMR OHN

From the five key-areas identified in the roadmap for action, which ones do you think should be addressed as a priority?

061

(1/2)

1. Put prevention at the heart of AMR policy-making
 3.08
2. Help countries mobilise resources for better implementation of national AMR policies
 2.59
3. Tackle the environmental dimension of AMR in the framework of the European Green Deal
 2.21
4. Set targets and performance indicators
 2.00

From the five key-areas identified in the roadmap for action, which ones do you think should be addressed as a priority?

(2/2)

0 6 1

5. Close the existing collaboration gap between civil society and EU policy-makers

One of the conclusions from the case study report has been that implementation of One Health in practice seems to be still in infancy. Which of the following do you think can better facilitate implementation of One Health in practice?

Policy and legislation at EU level

Policy and legislation at regional/local level

Raising awareness of the public about One Health

Increasing opportunities for intersectoral collaboration
