# AMR Multi-Stakeholder Partnership Platform

*Catalyzing a global movement for action against AMR*

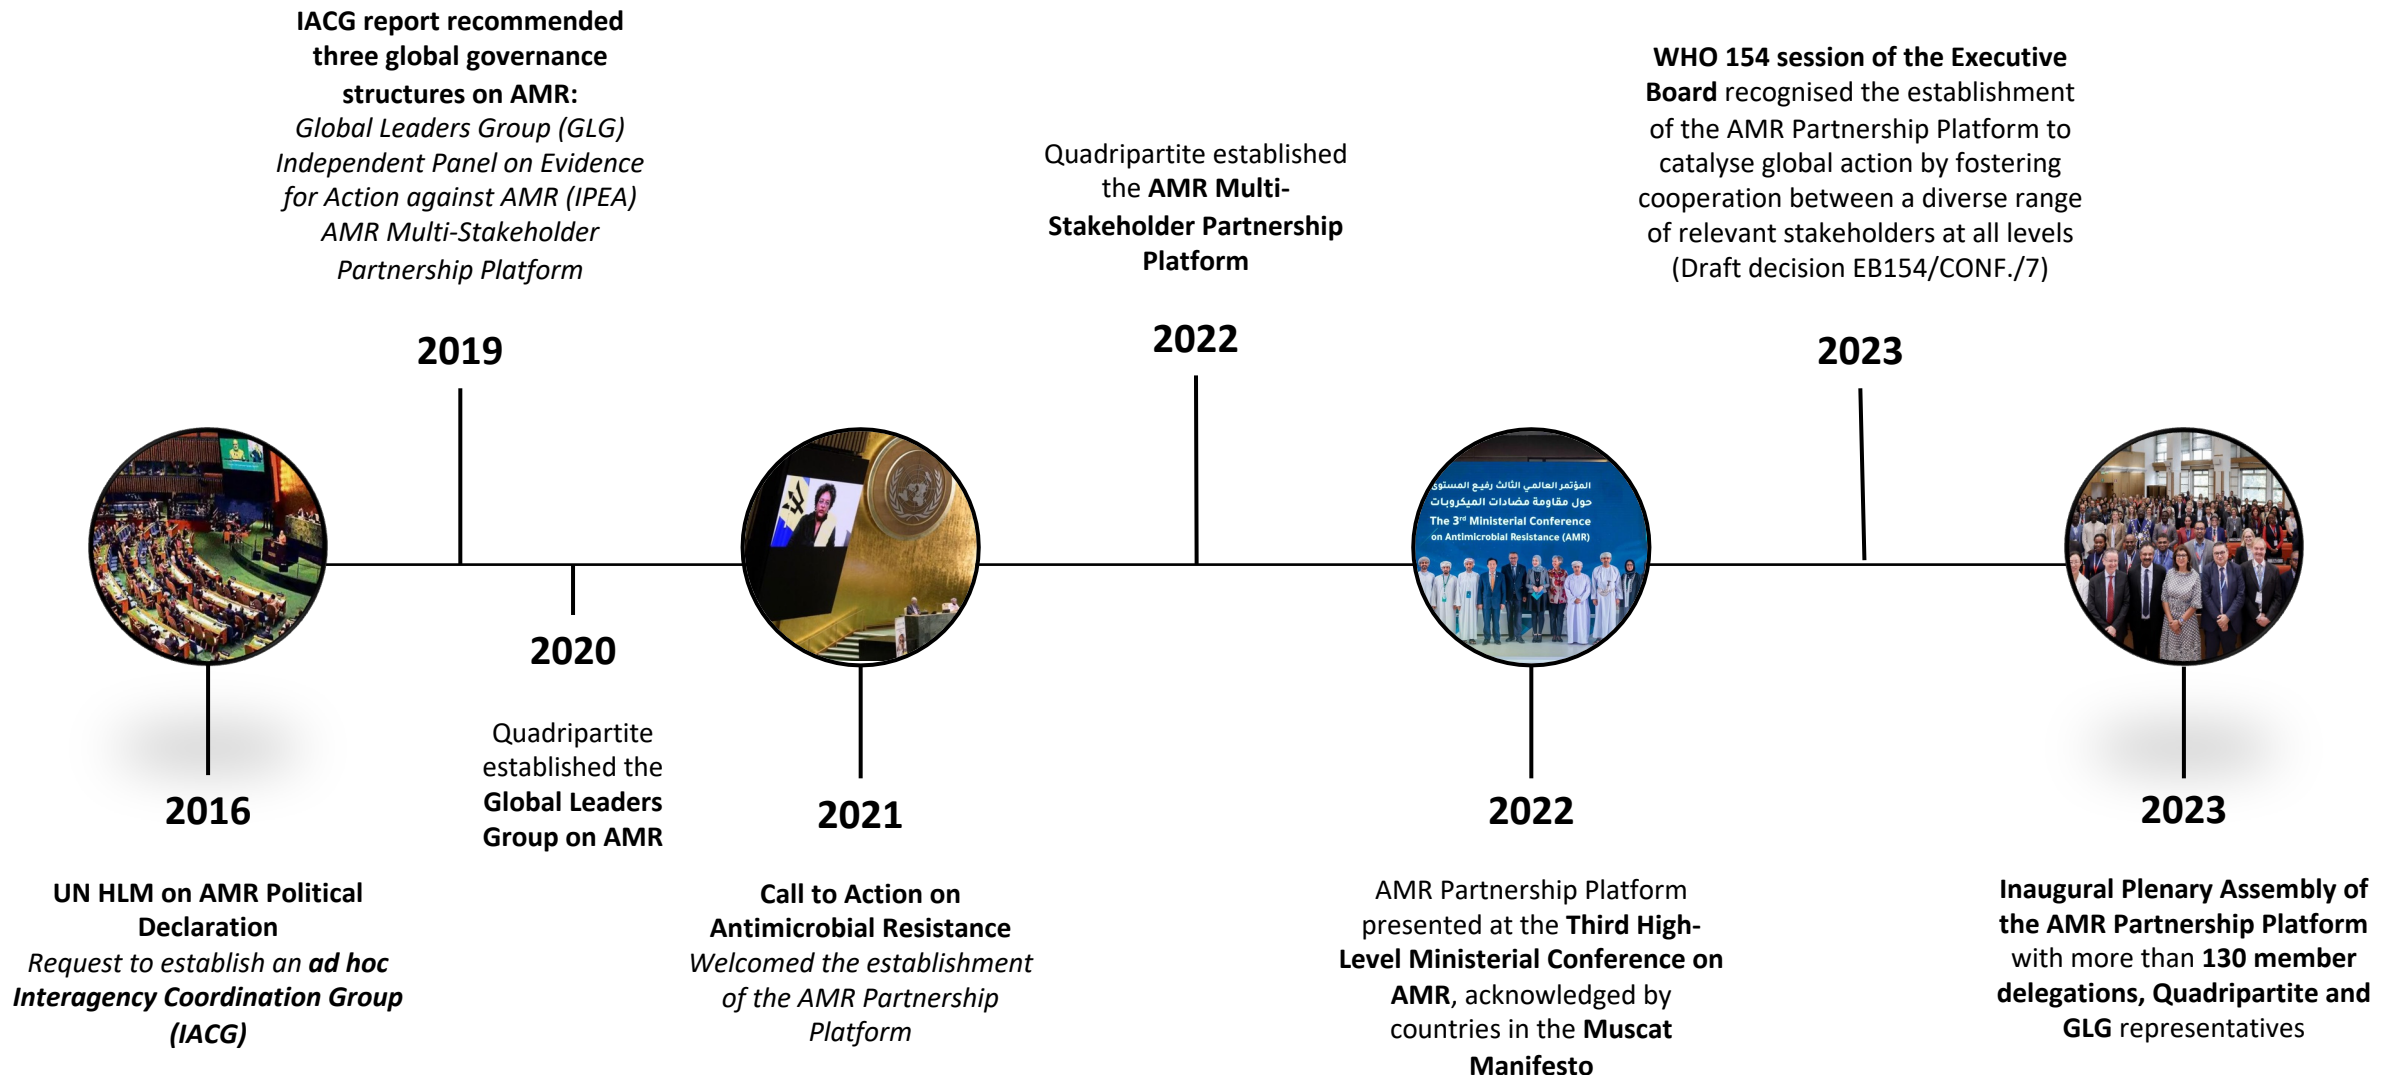

## What is the Platform?

- **Antimicrobial resistance (AMR)** poses a significant threat to global health, with the potential to undermine the effectiveness of antibiotics and other antimicrobial drugs. Addressing AMR requires collaborative efforts from diverse stakeholders across sectors and disciplines.
- The **AMR Multi-Stakeholder Partnership Platform** is a collaborative initiative aimed at addressing AMR through coordinated action and engagement of stakeholders from various sectors, including healthcare, agriculture, and policy.

# Global governance on AMR

# What are the Platform's objectives?

Facilitate global multi-stakeholder coordination across the One Health sectors, disciplines and regions

Drive multidisciplinary actions at global, regional, and national levels;

Build global momentum and generate high-level advocacy

Share and enhance knowledge, evidence, and innovation

Generate global commitment to address AMR

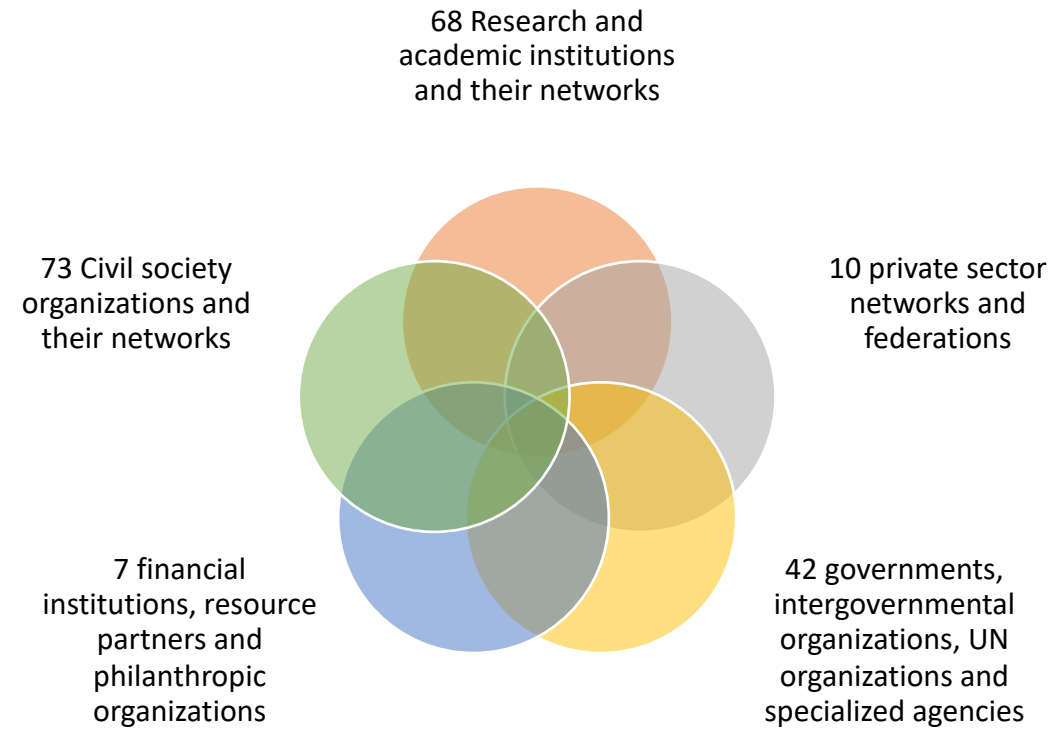

# Our network

- Rolling membership
- 300+ membership applications
- 200+ constituency members (organizations, networks and federations)

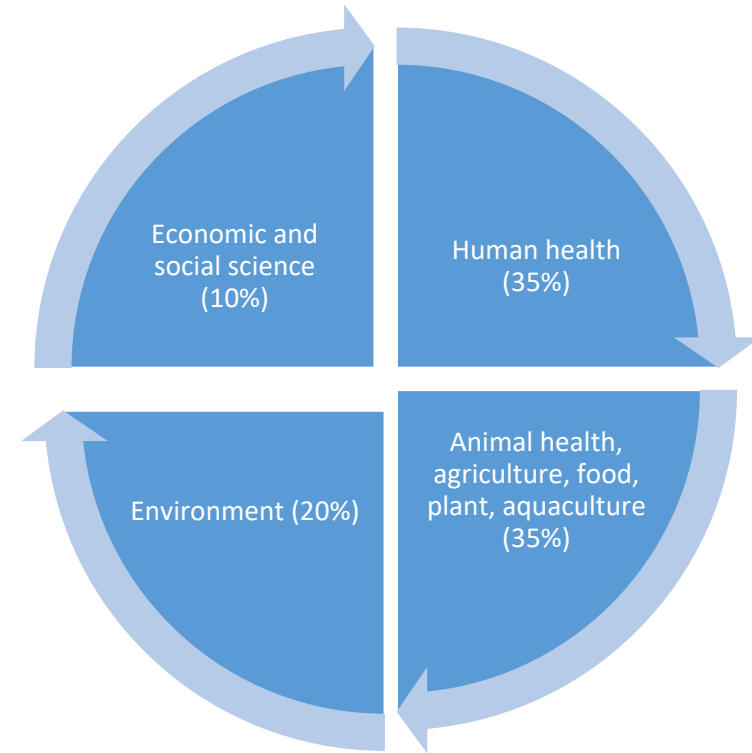

# Our network

## By stakeholders

## By sectors

# Governance structure

## Steering Committee

4 Quadripartite high-level representatives and 5 cluster representatives

## Annual Plenary Assembly

global alignment and consensus-building

## Coordinating Team

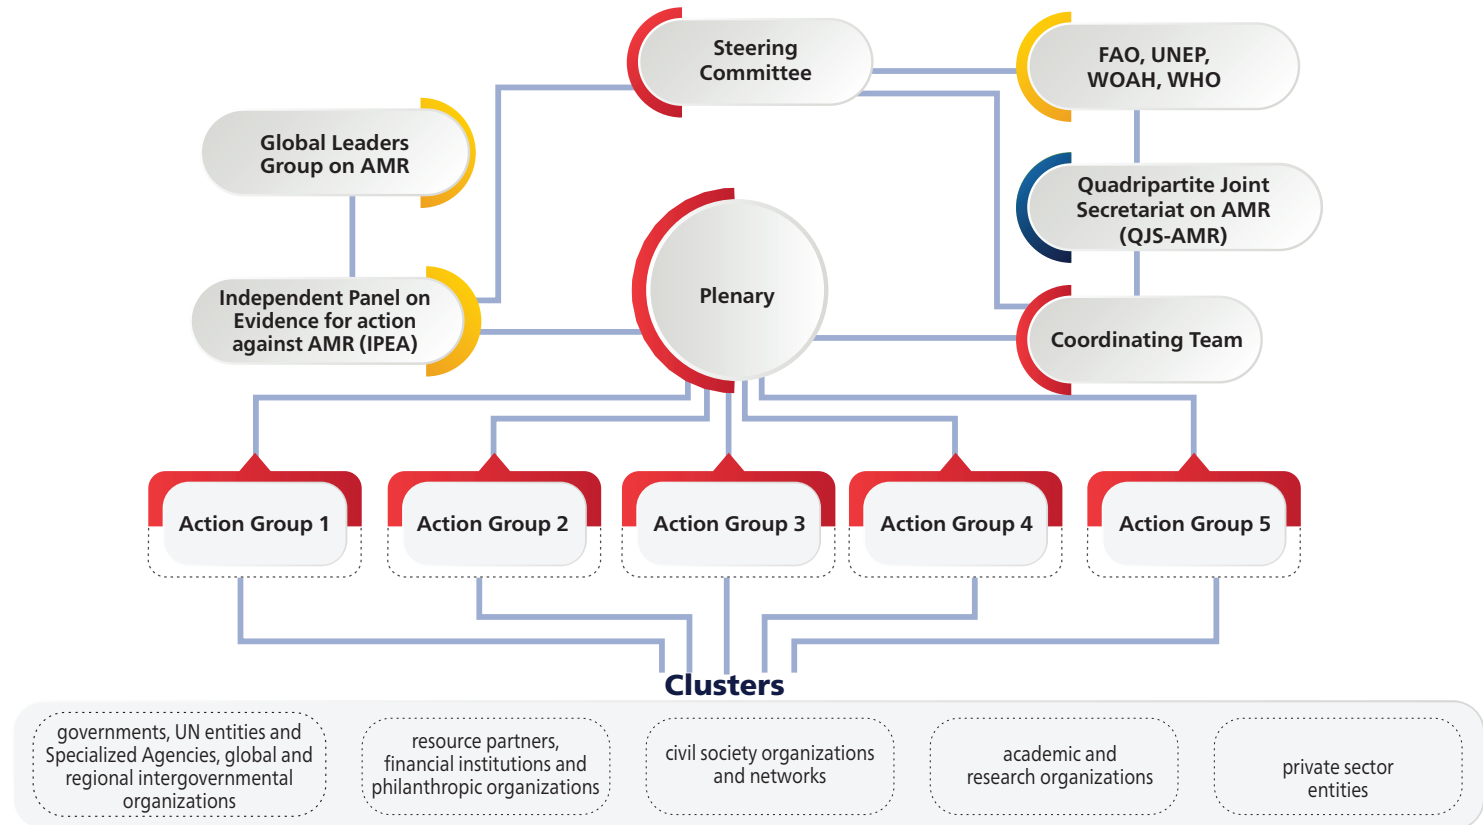

Quadripartite Responsible Officers, Platform Coordinator, Communications and administrative support and senior advocate and advisor

## Action Groups (13)

proposed and driven by Members

## 5 Constituency clusters

composed of stakeholders from different OH sectors and regions

# Our Steering Committee

**Arshnee Moodley, Chair**, CGIAR Antimicrobial Resistance Hub Lead, AMR Team Leader, Associate Professor, International Livestock Research Institute & University of Copenhagen

**Maria Helena Semedo**, Deputy Director-General, Food and Agriculture Organization of the United Nations (FAO)

**Tonny Brian Muthee**, Health Specialist and Global Task Team Lead on AMR, World Bank

**Michiel Peters, Vice-Chair**, AMR Industry Alliance Secretariat Representative

**Yukiko Nakatani, a.i.** Assistant Director-General for AMR, World Health Organization (WHO)

**Masika Sophie**, Global Health Policy Manager, World Federation for Animals

**Christine Middlemiss**, CB, UK's Chief Veterinary Officer (CVO)

**Jean-Philippe Dop**, Deputy Director General, World Organisation for Animal Health (WOAH)

**DG SANTE**, Observer Status

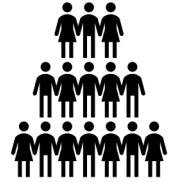

*Representative to be confirmed*

# Our Inaugural Plenary Assembly

130+ member delegations from across the world and OH sectors

Plenary and group discussions

Governance on AMR, UNG HLM, presentation of the Action Groups proposals

Networking, exchange

Presentation of the Steering Committee & inaugural SC meeting

Exhibition on the occasion of WAAW

# Our Action Groups

- ✓ 13 Action Groups proposed and driven by members
- ✓ Cross-sectoral One Health collaboration
- ✓ Aim to deliver concrete actions

## Global scope

- UNGA HLM on AMR
- Access and innovation
- Financing for AMR (2)
- Integrated AMR/AMU surveillance
- Stewardship
- Education and awareness raising

## Regional scope

- Drivers of AMR in Asia-Africa (India, Nigeria, Democratic Republic of the Congo and Tanzania)
- Strengthening of community –level engagement (mapping of CSOs in Africa)

## Sector-specific

- Animal welfare
- Veterinary Education
- Inter-regional exchange of best practices
- Drug-resistant Tuberculosis

## GLOBAL SCOPE

UNGA 2024 HLM ON AMR

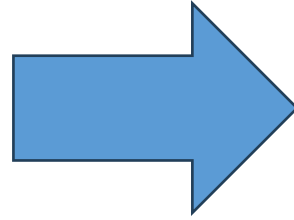

Access and innovation

Financing for AMR (2)

Surveillance

Stewardship

Education and awareness raising

## EXPECTED OUTCOMES

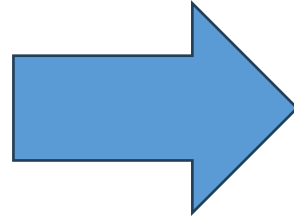

- Key multi-stakeholder recommendations for UNGA HLM
- Multi-stakeholder consensus on (1) targets (2) financing needs (3) accountability on access and innovation
- Collection of evidence on economic effects of AMR, mapping of funding models and resource mobilization for LMICs
- Advocacy for integrated surveillance on AMR, generation of evidence for policy and programmes, set-up of a network of laboratories with OH focus
- Set-up of an inclusive group of actors across the antimicrobial value chain to develop/collate and synthesize AMS resources and best practices for stewardship
- Development and delivery of a set of tailored interventions and materials for global awareness and behaviour change

## REGIONAL SCOPE

Drivers of AMR in Asia-Africa (India, Nigeria, Democratic Republic of the Congo and Tanzania)

Strengthening of community –level engagement (mapping of CSOs in Africa)

## EXPECTED OUTCOMES

- Reduction of AMR burden transmitted by food chains from poultry to humans
- Mapping of sources and transmission patterns
- Mapping of CSOs working on AMR in Africa
- Establishment of regional and subregional CSOs coordination boards
- Comprehensive situation analysis of NAPs implementation

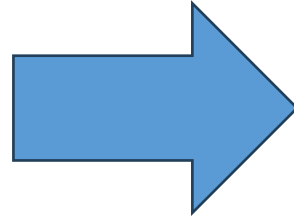

## SECTOR-SPECIFIC SCOPE

Animal Welfare

Veterinary Education

Inter-regional exchange of best practices

Tuberculosis

## EXPECTED OUTCOMES

- Best practice guidance for integration of animal welfare in NAPs
- Stocktaking of existing research and evidence and advocacy for greater linkages between AMR and animal welfare
- Improved access to AMU, AMR and AMS information to veterinarians, students and health personnel (focus on prescribers and behaviour change)
- Exchange of local knowledge and collaboration among local practitioners on prudent AMU in agrifood systems
- Advocacy and awareness activities on drug-resistant tuberculosis

# UN HLM on AMR 2024 – how can the AMR Partnership Platform contribute?

Pooling expertise for comprehensive insights

Developing and proposing integrated strategies

Facilitating global and regional collaboration

Advocating for policy changes and funding

Enhancing public awareness and education

Sharing best practices

Supporting research and innovation

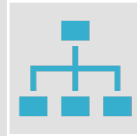

Influencing financial and resource allocation

Monitoring and evaluation

Creating a bridge between policy and implementation

# Action Group on UN HLM on AMR 2024

Composed of more than 80 members from across five constituency clusters of the Platform

Aims to develop and produce a set of key recommendations to the Member States encompassing all the One Health sectors

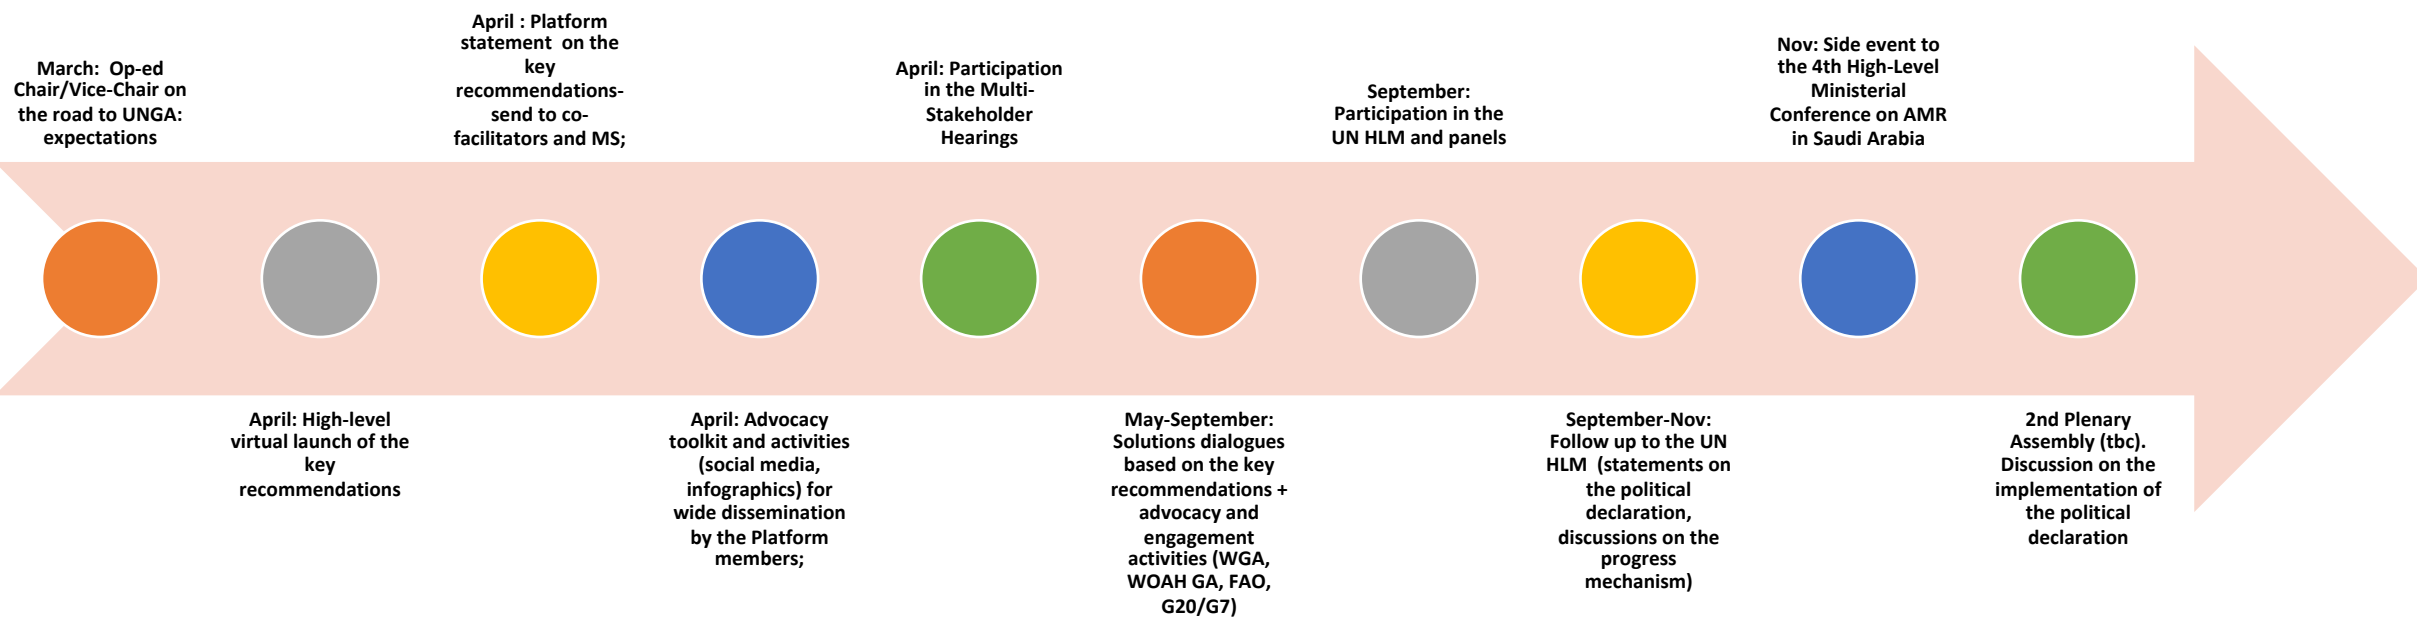

Highly collaborative, bottom-up co-creation process that aims to gather inputs from multiple stakeholders across the Platform (90+ recommendations received)

Multi-stakeholder alignment dialogues to build consensus on the key recommendations

# ROADMAP TO UNGA HLM on AMR 2024

# Thank you!
