Authority: **Ministère de la santé et de la prévention (MoH-FR)**

Brief motivation (max 100 words):

Dear colleagues,

Digital health is at a turning point in the EU while we are aware of implementation challenges faced in large or small territories. As digital health contribute to create Europe for Health, capitalizing on eHealth Network is key while preparing for it to evolve and align with the EHDS regulation. Dialogue, co-construction and effective small steps are essential and our responsibility to move forward.

As the new co-head of the French Ministerial delegation for digital health, I would therefore be honoured to serve the eHealth network as co-chair, together with the European Commission, and to support Member States.
