22ND eHEALTH NETWORK MEETING 7 NOVEMBER 2022, BRUSSELS, BELGIUM

COVER NOTE

3.1 EU Digital COVID Certificate

1. Issue at stake

Inform the eHealth Network of the state of play with regard to EU Digital Covid Certificates.

2. Summary

The EU Digital COVID Certificate (EUDCC) is currently in use in 76 countries and territories: all EU countries and 49 non-EU countries and territories. Discussions with further third countries are ongoing.

The eHealth Network's subgroup on technical interoperability is working on the consolidation of existing technical documentation regarding EU DCC. It has also set up a task force for exploring the options for the future of the EU DCC system.

A pilot on interoperable digital health trust networks is being conducted by G20 and WHO. The Commission and some Member States are following the pilot.

3. Format of procedure in the meeting

For information.

Member States will be invited to provide any comments on the future of the EU DCC.
