

A Digital Decade to shape EU's transformation

VALUES

TARGETS

Skills
ICT Specialists: 20 millions + more women in ICT
Basic Digital Skills: min 80% of population

Government
Key Public Services: 100% online
e-Health: 100% of citizens with online access to health records
Digital Identity: 100% citizens have access to digital ID

Business
Tech up-take: 75% of EU companies using Cloud, AI or Big Data
Innovators: grow scale ups & finance to double EU Unicorns
Late adopters: more than 90% of European SMEs reach at least a basic level of digital intensity

Infrastructures
Connectivity: Gigabit for everyone
Cutting edge Semiconductors: double EU share in global production
Data – Edge & Cloud: 10,000 climate neutral highly secure edge nodes
Computing: first computer with quantum acceleration

2030

Destination

In a nutshell, focus on:

- People
- Sovereignty/leadership /economic ecosystem
- Society
- Greening

GOVERNANCE MECHANISM

Annual report, recommendation, peer review, Digital Decade Board

MULTI COUNTRIES PROJECTS

agility to invest together in digital infrastructures (EDIC)

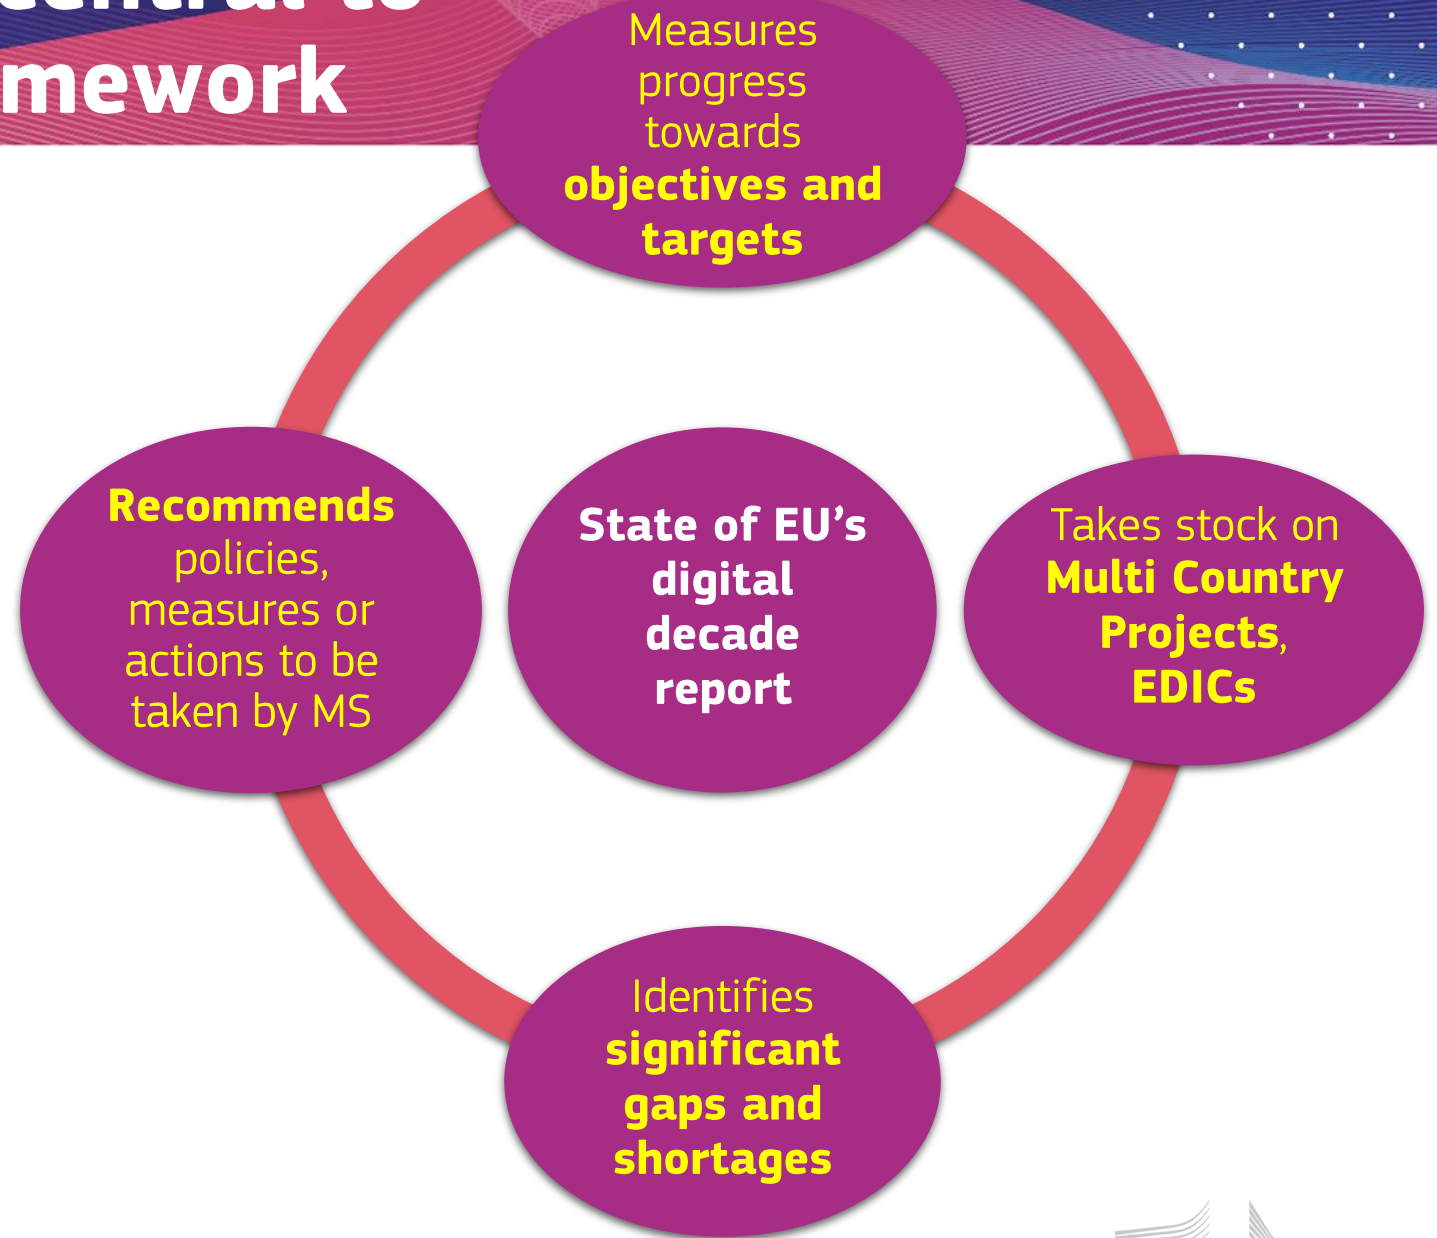

Action

2030 Digital COMPASS Communication (March 2021)

Vision

The annual report, central to the governance framework

- Every June, will be **THE “rendez-vous”** to take stock on digital policies
- **Comprehensive** report on EU’s digital transformation, including DESI
- Will include an assessment on where the EU is with respect to the 2030 targets and objectives
- Its findings will be presented to the European Parliament and Council and give rise to the subsequent dialogue with MS on follow up measures, including potential adjustments of national roadmaps, new MCPs, etc.

Preparatory work for the implementation of the DDPP

- **Implementing act setting out KPIs** – to measure progress for each **target (including e Health) coherently across all MS** – to be discussed with MS in expert group(s), then adopted via a formal comitology procedure
- **Union-level projected trajectories** – to set the **ideal path that the KPIs should follow** to reach the digital targets, allowing to **make assessments on an annual basis** whether the progress is sufficient or further action is needed
- **Guidance to MS on how to establish national roadmaps** – setting out **common elements that all roadmaps should include** (e.g. analysis of the national context and vision, national target values and trajectories, description of measures to contribute to the 2030 targets and objectives)

Preparatory work timetable

14 July

Political
agreement
on DDPP

21 Nov

First meeting of the
**Digital Decade
Board** to discuss KPIs,
Guidance, trajectories

January / February

KPIs, Guidance,
Trajectories, First
EDICs

June

First annual report on
the **State of the
Digital Decade**

21 October

First ISSG
meeting

DDPP:

Mid December
publication

Early January entry into
force

February / March

IT tool finalised
Data collected for
each targets

Collect analysis, facts, monitoring, Eurobarometers, to feed the annual report e.g.
progress towards objectives and targets
