

## **24<sup>TH</sup> EHEALTH NETWORK MEETING 1-2 JUNE 2023, STOCKHOLM, SWEDEN**

### **COVER NOTE**

#### **2.2 Technical IOP Subgroup mandate update, rules of procedure for subgroups under eHN, election of subgroup's co-chair**

##### **1) Introduction**

The eHN Subgroup on Technical Interoperability (Technical IOP SG) was established at the 17th eHN meeting, on 3 June 2020. During its work, the Technical IOP SG has been instrumental in delivering the following outcomes:

- Design and set up of the EU Digital COVID Certificate system, and planning its future;
- Preparation of the decision regarding the selection of the base standard for the new use cases in MyHealth@EU;
- Development of the eHN Guidelines on medical imaging studies and reports;
- Preparation of the document on ePrescription & eIDAS integrated vision;
- Support to other activities of the eHN, including active dialogue with the Semantic SG and the eHMSEG (in particular, its technical WG).

##### **2) Issue at stake**

The mandate of the Technical IOP SG has been updated and is presented for adoption by the eHealth Network.

Co-Chairs of the Semantic and Technical Subgroups have prepared a model rules of procedure document for eHN subgroups.

Vincent van Pelt (NL) has acted as the MS co-chair of the subgroup since its establishment. As he is stepping down, a new co-chair should be selected. Panayiotis Savva (CY) has applied for the position.

##### **3) Summary**

The Technical IOP subgroup requests the eHealth Network to award the eHN Subgroup on Technical Interoperability a mandate of 2 years with an evaluation moment by the eHN in June 2025. After the 2-year mandate it is to the eHN to decide on an extension of the mandate, depending on the needs.

The model rules of procedure for eHN subgroups are presented for adoption.

One application has been received for the position of the Technical IOP SG Member State co-chair. It is proposed that Panayiotis Savva (CY) is appointed to the position.

##### **4) Format of procedure in the meeting**

For adoption: mandate, rules of procedure

For decision: election
