

18TH EHEALTH NETWORK 12-13 NOVEMBER 2020, BRUSSELS, BELGIUM

COVER NOTE

4.4 Update on Horizon Europe

1. Issue at stake

Horizon Europe Cluster 1 Health will support, through its Work Programme 2021-2022, several topics relevant for the European Health Data Space (EHDS). The Work Programme of the Research Infrastructures has some relevant topics too.

2. Summary

The presentation will cover the status of negotiations concerning Horizon Europe and the potential timing of launch of the first work program. It will also present briefly relevant areas for the eHealth Network from the Cluster 1, Health, and from the Research Infrastructures.

It will include an update on the status and timing of the relevant missions (e.g., Mission on Cancer), and Partnerships currently under preparation. Public-public partnership on Transforming health and care systems, public-public partnership on Personalised Medicine, public-public partnership on Global Health (EDCTP3) and public-private partnership on Innovative Health (IHI).

The presentation will also address how Horizon Europe will support the building of the EHDS, in particular as concerns its research dimension and the secondary use of health data, without disclosing the individual topics still under preparation.

3. Format of procedure in the meeting

For information.

Any feedback on the foreseen actions is welcome; in particular taking into account the potential increased role of the eHealth Network in the future as concerns the secondary use of health data.
