Every year in November, the eHDSI Work Plan for the subsequent year is presented to the eHealth Network for approval. The objective is to ensure that the eHealth Network can appropriately steer the implementation of eHDSI.

2. Summary

The eHDSI Work Plan 2021 describes the key actions the Commission (DSI Owner and DSI Solution Provider) will do in 2021 as regards the core service implementation and support to the National Contact Points for eHealth.

The eHDSI Work Plan 2021 was endorsed by the eHMSEG on 20 October 2020.

Besides providing a structured perspective on how activities are organised in the eHDSI Core Services, the eHDSI Work Plan is a mechanism that enables the definition of priorities and matters to be tackled during the year in question. The opportunity to debate and consolidate it at eHMSEG aims at introduce a higher level of alignment between work to be performed and NCPeHs perceived needs and interests.
