19TH eHEALTH NETWORK 3 JUNE 2021, BRUSSELS, BELGIUM

COVER NOTE

1.4 Update on the Horizon Europe

1. Issue at stake

Horizon Europe Cluster 1 Health will support, through its Work Programme 2021-2022, several topics relevant for the European health data space (EHDS). The Work Programme of the research infrastructures has some relevant topics too.

2. Summary

The presentation will cover the current status on the adoption of Horizon Europe, and also present briefly relevant call topics for the eHealth Network from the Cluster 1, Health, and from the research infrastructures. This will describe how Horizon Europe will support the building of the EHDS, in particular as concerns its research dimension and the secondary use of health data.

It will include an update on the status and timing of the relevant missions (e.g., Mission on Cancer), and partnerships currently under preparation. Public-public partnership on transforming health and care systems, public-public partnership on personalised medicine, public-public partnership on global health (EDCTP3) and public-private partnership on innovative health (IHI).

3. Format of procedure in the meeting

This is an information session. Any feedback on the foreseen actions is welcome, in particular taking into account the potential increased role of the eHealth Network in the future as concerns the secondary use of health data.
