

## **21<sup>ST</sup> EHEALTH NETWORK MEETING 1-2 JUNE 2022, PARIS, FRANCE**

### **COVER NOTE**

#### **6.2 Update from the Technical IOP SG**

##### **1. Issue at stake**

The Technical Interoperability Subgroup was established in Summer 2020. The work of the subgroup has been instrumental in the development of the EU Digital COVID Certificate. The subgroup's chair will present the currently ongoing work and next plans of the subgroup.

##### **2. Summary**

The subgroup has started discussions related to the interoperability repository/workspace and the use of eID in health. The reuse and extension of the results from the EU DCC trust framework are being considered by the subgroup.

The subgroup has expertise to take further assignments. It is organising a face-to-face meeting on 7 June 2022 in Brussels to identify potential next work items, subject to agreement of the eHN.

##### **3. Format of procedure in the meeting**
