

E.F.P.I.A.
European Federation
of pharmaceutical Industries
and Associations
Rue du Trône 108
1050 Brussels

Declaration of membership in other organisations/networks

Membership:

- IFPMA - The International Federation of Pharmaceutical Manufacturers and Associations

IFMA represents the innovative pharmaceutical industry at the international level and in official relations with the United Nations. IFPMA works closely with all public health stakeholders in the UN system, including the World Health Organization, World Trade Organization, and World Intellectual Property Organization, representing over 90 of the global pharmaceutical industry's companies and associations like EFPIA.

Registered/accredited stakeholder:

- European Medicines Agency (EMA)

EFPIA is an eligible and registered stakeholder to the EMA. As such, EFPIA is involved both in structured and topic-driven interactions with the Agency, like the [Industry Standing Group \(ISG\)](#) or the multiple [EMA-Industry stakeholder platforms](#) (e.g. research and development support, centralised procedure, pharmacovigilance).

Ref: [List of eligible stakeholder organisations](#)

- European Chemicals Agency (ECHA)

Ref: [ECHA accredited stakeholders](#)

Partnership:

- EU health coalition

Is a multi-stakeholder initiative, gathering 42 organisations from within across the health community, aiming at mapping the future, the challenges, and the role of the EU for healthcare in Europe, to deliver the best outcome for patients.

- IHI (Innovative Medicines Initiative) Public-Private Partnership

Is a public-private partnership under Regulation 2021/2025 between the European Commission and the pharmaceutical industry involving the pharmaceutical, medical technology, biotechnology, digital health and vaccine industries, aiming to improve drug development in Europe through a broad involvement of relevant stakeholders.
