The organization for which I work (National Serology Reference Laboratory, Australia [NRL]) is a national body that provides services to the WHO and Australian regulator (TGA) conducting test kit evaluations for regulatory purposes. NRL occasionally provides training in quality assurance and other topics related to IVDs on behalf of test kit manufacturers on a fee for service basis. Test kit manufacturers sponsor NRL educational workshops in Australia and Asia. NRL has conducted some studies on behalf of test kit manufacturers on a fee for service basis.

I have not received direct payment from any IVD manufacturer for any activities undertaken by NRL or its affiliates.

I confirm the information declared on this form is accurate and complete to the best of my knowledge and I acknowledge that my information will be stored electronically and published on the website of the European Commission.
