### Publications

#### Projects

01/10/2020 – 01/11/2020

**Expert-head of the project "Support to reforms of the primary health care in Moldova"**

Practical recommendations have been prepared and published (notebook).

These recommendations are primarily designed as an information resource for decision-makers in central and local

public administration in the field of health, specialists in health care management, family physicians, as well as for

organizations and specialists interested in the reform of Primary Health Care in Moldova. The recommendations were

developed within the framework of the Project "Support to reforms in the primary health care in Moldova",

implemented by the Center for Health Policies and Studies (PAS Center), with the financial support of the Embassy of

the Republic of Lithuania in the Republic of Moldova. The Project is funded under the Lithuanian Development

Cooperation and Democracy Promotion Programme. The opinions expressed in this publication belong exclusively to

the author and do not necessarily reflect the views of the Embassy of the Republic of Lithuania in the Republic of

Moldova and the PAS belong exclusively to the author and do not necessarily reflect the views of the Embassy of the

Republic of Lithuania in the Republic of Moldova and the PAS center.

01/02/2018 – 31/12/2018
