Sector Specific Digital Service Infrastructures

Projects reusing the building blocks

EHEALTH

EHEALTH REFERS TO TOOLS AND SERVICES USING INFORMATION AND COMMUNICATION TECHNOLOGIES (ICTS) THAT CAN IMPROVE PREVENTION, DIAGNOSIS, TREATMENT, MONITORING AND MANAGEMENT.

Electronic Exchange of Social Security Information

Tinus MICHIELS posted on May 30, 2017

This Digital Service Infrastructure is an IT system – EESSI - that will help institutions across Europe to exchange information needed for the social security coordination more rapidly and securely.

eProcurement

Tinus MICHIELS posted on May 30, 2017

E-procurement can significantly simplify the way procurement is conducted and deliver better procurement outcomes by stimulating greater competition across the Single Market.
