Grants

Grants

€1.04 billion is made available for the telecommunications sector under the CEF programme for 2014-2020. Part of the funding under the CEF is expected to be made in the form of grants allocated following competitive calls for proposals.

INEA manages all CEF Telecom calls for the deployment of a set of generic services linking national infrastructure to the core service platforms across the EU.

INEA

INEA have an overview of [projects that have received funding](#) and allow you to [browse projects by country](#). You can also find [how to apply](#) or view the [frequently asked questions](#). For questions related to grants, deadlines and eligibility you can contact INEA-CEF-TELECOM-CALLS@ec.europa.eu.
