UK Phase III Auction Platform Report

Report number: 47
Period covered: 1 - 30 November 2017

Introduction

1. This report contains information on auctions held on the UK’s Phase III European Union Emissions Trading System (EU ETS) Auction Platform. Auctions are held according to the published [1] auction calendar.

2. Auctions are conducted by ICE Futures Europe on behalf of the Department for Business, Energy and Industrial Strategy (BEIS). DECC (the Department of Energy and Climate Change, the predecessor to BEIS) first appointed ICE Futures Europe in April 2012 [2] and following a European Commission approvals process [3] held the first auction [4] in November 2012. The first aviation auction took place on 17 September 2014. In February 2016, BEIS launched a re-procurement process for the UK’s opt out auction platform. Following a further European Commission approvals process, ICE Futures Europe were re-appointed to conduct UK auctions from 10 November 2017 [5]. The first auction under the new platform took place on 29 November 2017.

3. The report is based on post-auction data provided by ICE Futures Europe under the Auctioning Regulation [6]. This data [7] is available on the ICE Futures Europe website.

Section 1: Auction results

Description of auctions concerned

4. This report covers the Phase III European Union Allowance (EUA) auctions held this period. There were no aviation (EUAA) auctions held during this period. The results of the auctions are in the tables below, which also includes the ICE EUA futures prices [8] for the next December expiry at close the day of each auction.

* weighted average

EUA auction clearing price formation

6 The graph below shows the clearing price over time for the EUA auctions held in this reporting period. Each of the auctions took place successfully and the clearing price rose by €0.12 between the two EUA auctions. The volume weighted average price per allowance was:

€ 7.54

EUA clearing price

---

Page 2 of 7
EUA auction clearing price formation

7 The graph below shows the clearing price compared to the ICE EUA futures price for the next December expiry at close the day of each auction. The graph shows that the auction clearing price was below the futures price for both the 1 November 2017 EUA auction and the 29 November EUA auction. In this reporting period, the volume weighted average price differential was:

€ 0.06

![EUA clearing and futures prices graph]

EUA cover ratio

8 The graph below shows the cover ratio (allowances bid for divided by allowances auctioned) for the auctions held in this reporting period. The cover ratio fell by 0.10 between the 01 November 2017 EUA auction and the 29 November 2017 EUA auction. Across this auctioning reporting period:

19.721m EUA allowances were bid for (rounded), and
2.31 was the volume weighted average cover ratio.

![EUA cover ratio graph]
The graph below shows the number of bidders and number of successful bidders for the auctions held this reporting period. There were no auctions where all participating bidders were successful. Across the period:

- was the average number of bidders per EUA auction, and 
- was the average number of successful bidders per EUA auction.

The graph below shows the average number of allowances bid for by each bidder and the average number of allowances awarded to each successful bidder for the successful auctions held this reporting period. Across the period:

- to was the range of allowances bid for on average, and 
- to was the range of allowances awarded on average.
Section 2: Implementation and compliance with the applicable rules

Fair and open access

11 ICE Futures Europe provides full details of the admissions process [9] on its website as required by the Auctioning Regulation. There were no irregularities or deviations from the admission and access requirements.

Transparency

12 ICE Futures Europe provides full details of the auction results [10] on its website as required by the Auctioning Regulation. This information includes details of how the clearing price is determined (subject to the confidentiality obligations under the Auctioning Regulation), how all participants have access to the same information at the same time and the EUA and EUAA contract specifications.

14 Monitoring by ICE Futures Europe in real-time of behaviour during the auction includes:
• monitoring of trading activity in ICE Futures Europe’s markets to ensure that a fair and orderly market is maintained;
• identifying bids which are out of line with permitted bid ranges;
• identifying any unusual bidding behaviour;
• calculation and publication of settlement prices; and
• announcing and notifying auction results.

15 ICE Futures Europe’s Complaints Resolution Procedures [12] were in place during the reporting period.

16 There were no incidents of abusive behaviour publicly reported during the reporting period

Technical and operational aspects

17 No irregularities or deviations from the requirements occurred regarding the auctions or the clearing and settlement processes.

Conclusion

Comments by the auction platform

18 No comments by the auction platform this reporting period.
Description of how comments have been taken into account

19 Not applicable this reporting period.

This report is based only on publicly available information on the auctions.
Use of the information provided in this report is solely at the user’s risk.
