THE COMMISSION OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Community,

Whereas:

(1) The national allocation plan of Sweden for the period 2005-2007, developed under Article 9(1) of Directive 2003/87/EC, was notified to the Commission on 27 April 2004 and registered on 29 April 2004. Sweden submitted additional information completing the notified plan by a letter received on 18 June 2004 in reply to questions from the Commission and a letter received on 30 June 2004.

(2) The Climate Change Committee has considered the national allocation plan and has called on the Commission to inter alia compare the proposed allocation to Sweden’s projections for the non-trading and trading sectors, and urged the Commission to compare Sweden’s allocation to recent historic and projected emissions and to examine the justification for deviations from recent historic and projected emissions for the trading sector. The views of the Climate Change Committee have been taken into account.

(3) The national allocation plan, including the total quantity of allowances stated therein, has been evaluated in accordance with the Commission Communication on guidance to assist Member States in the implementation of the criteria listed in Annex III to Directive 2003/87/EC\(^2\).

(4) On the basis of the information provided by the Member State, the Commission therefore considers that any potential aid is likely to be compatible with the common market should it be assessed in accordance with Article 88(3) of the Treaty.
