

Quota Transfer

**How to Make a
Quota Transfer in
the HFC Registry**

https://ec.europa.eu/clima/policies/f-gas/reporting/index_en.htm

First, you will need to enter the F-Gas Portal, either directly from DG CLIMA Webpage ...

The screenshot shows the European Commission website for Climate Action, specifically the F-Gas reporting page. The page features a blue header with the European Commission logo and the text 'CLIMATE ACTION'. Below the header is a navigation menu with icons for Home, About us, Climate change, EU Action, Citizens, News, and Contract & Grants. A main content area displays a large image of air conditioning units with a 'Listen' button. Below the image is the title 'Quota allocation, the HFC Registry and data reporting' and a sub-section 'Quota allocation and the HFC Registry'. A text block under 'Update November 2014:' states: 'Registration: All companies that need to register in the HFC Registry can do so now.' This phrase is circled in blue. Below this, it explains that this includes importers of equipment containing HFCs and all entities supplying or receiving exempted gases. A final paragraph mentions 'Incumbents (see definition below) have been allocated Reference Values by Commission Implementing Decision (2014/774/EU) of 31/10/2014, which lists...'. On the right side, there is a search bar, a 'Read more' section with 'Publications' and 'Climate law', and a 'Latest news' section with three news items dated 21/11/2014, 14/11/2014, and 03/11/2014.

PROFILE

HFC REGISTRY

WELCOME TO THE HFC REGISTRY

This is the HFC Registry, as mandated by Art. 17 of Regulation (EU) No 517/2014.

Only producers and importers of HFCs, undertakings supplying or in receipt of exempted HFCs [according to Art. 15(2)] and importers of RAC equipment pre-charged with HFCs need to access the Registry. If any of these apply to your organisation, this must be specified in the business specifications of your profile.

MY QUOTAS:

This part of the HFC Registry is for importers and producers of bulk HFCs. It allows them to see their allocated reference values and quotas as well as make and receive quota transfers.

[ACCESS MY QUOTAS](#)

MY DECLARATIONS:

This part of the HFC Registry allows importers and producers of bulk HFCs to make their yearly declarations of quota need, thus bidding for a possible allocation of quota from the NEW ENTRANTS RESERVE.

[ACCESS MY DECLARATIONS](#)

MY AUTHORIZATIONS:

This part of the HFC Registry allows importers and producers of bulk HFCs to authorise the use of quota allocated to them to importers of precharged refrigeration, air conditioning and heatpump equipment. Such an authorisation allows the importers of precharged equipment to account for gases imported inside the equipment under the quota system (Art. 14).
