SHORT DESCRIPTION OF THE PROJECT:

GEODE will prototype, test and qualify multiple Galileo PRS enabled Positioning, Navigation and Timing(PNT) navigation solutions for defence specific requirements and applications (7 PRS Security Modules, 9 PRS receivers, 4 GPS/Galileo PRS compatible Controlled Radiation Pattern Antennas) and a European PNT test & Qualification Facility. A PRS infrastructure will also be developed to ensure the availability of the security assets necessary for the operational testing of the receivers. Military operational field-testing will be organised on Naval and Land platforms, RPAS, Timing and Synchronisation system in multiple Member States.
