## **COMP/M. 5983 -TYCO ELECTRONICS / ADC TELECOMMUNICATIONS**

### **SECTION 1.2**

#### **Description of the concentration**

TE designs, manufactures and markets electronic products to customers in a broad array of industries. Its business comprises four segments:

- (i) Transportation Connectivity: comprising Global Automotive, AD&M (Aerospace, Defence and Marine), Relay Products and Global Applications Tooling;
- (ii) Network Solutions: the supply of products for telecommunication and enterprise networks, including copper and fibre network connectivity products and closures, copper and fibre optic structured cabling, and associated hardware and accessories. It is this segment that is concerned by the merger<sup>1</sup>;
- (iii) Communications & Industrial Solutions (“**CIS**”): equipment and device connectivity, comprising Data Communications, Industrial Products, Consumer Devices, Lighting, Alternative Energy, Medical Products and Circuit Protection (“**CPD**”) and TE’s Channel business; and
- (iv) Technology and TouchSolutions: comprising TE’s Elo TouchSystems Sensitive Object business.<sup>2</sup>

---

<sup>1</sup> This business segment also supplies products for energy networks and subsea communications, but TE and ADC do not overlap in this area.

<sup>2</sup> The Elo TouchSystems' line, which is the global leading brand in touch technology, encompasses touchscreen technologies, touchmonitors and touchcomputers, designed for the requirements of diverse applications, such as industrial, medical, POS, kiosks, retail, hospitality, transportation and gaming.
