<sup>1</sup> OJ L 24, 29.1.2004, p. 1 (the ‘Merger Regulation’). With effect from 1 December 2009, the Treaty on the Functioning of the European Union (‘TFEU’) has introduced certain changes, such as the replacement of ‘Community’ by ‘Union’ and ‘common market’ by ‘internal market’. The terminology of the TFEU will be used throughout this decision.

- ATI: wholly owned subsidiary of American Towers LLC, which is itself a wholly owned subsidiary of the American Tower Corporation (ATC). ATC is an independent owner and operator of passive wireless communications infrastructure, which has a portfolio of approximately 183,000 telecommunication infrastructure sites in the Americas, Europe, Africa and Asia,
  - Target: as the European arm of ATI, it offers mobile network operator-neutral telecom hosting services on passive wireless communications infrastructure sites in France, Germany, Poland and, as a result of the parallel acquisition of another company (Telxius) by ATI, in Spain.
3. After examination of the notification, the European Commission has concluded that the notified operation falls within the scope of the Merger Regulation and of paragraph 5(b) of the Commission Notice on a simplified procedure for treatment of certain concentrations under Council Regulation (EC) No 139/2004.<sup>4</sup>
4. For the reasons set out in the Notice on a simplified procedure, the European Commission has decided not to oppose the notified operation and to declare it compatible with the internal market and with the EEA Agreement. This decision is adopted in application of Article 6(1)(b) of the Merger Regulation and Article 57 of the EEA Agreement.
