- for Indosat: provider of telecommunication services in Indonesia, including mobile data, voice, SMS and roaming services, fixed data and wireless broadband services as well as fixed telecommunication and digital services. Indosat is currently controlled by Ooredoo, a telecommunications group, ultimately controlled by Qatar Investment Authority, which provides telecommunication services in Qatar and in the Asia and Middle East and North African region.

For the reasons set out in the Notice on a simplified procedure, the European Commission has decided not to oppose the notified operation and to declare it compatible with the internal market and with the EEA Agreement.
