Description	Vehicles manufactured between 1 June 2006 and 5 September 2007 are affected.
Country of origin	France
Alert submitted by	Germany
Risk type	Injuries
Risk	These products pose a risk of injuries because a series of vehicles have been fitted with 195/65R16C tyres instead of the 205/65R16C models. Use of these tyres in traffic when the vehicle is loaded, entails the risk of a decline in the vehicles' performance which can cause the tyres to deteriorate and even burst in certain particular conditions of use and loading of the vehicle. As these vehicles are not fitted with the right tyres there is a risk of a blow-out and consequent traffic accident.
Measures adopted by notifying country	Voluntary corrective actions taken by the manufacturer.
