Workflow

Consumer (Complainant)

1. Create a complaint

If you want to file a complaint about an online sale, you can use the ODR system.

Overview

To **create a complaint**, you can start by creating an account, or you can sign in if you already have one.

You can also create a complaint without registering (you will, however, need to register later on). To start the process, first go through the screening phase, which means answering some questions. Then provide the trader's details, describe your complaint and enter your personal information.

If you wish, you can save all this in draft form. You can **edit the complaint** later on, then submit it.

You can also **create a complaint as a consumer representative**.

At this stage, you can also perform the following actions:

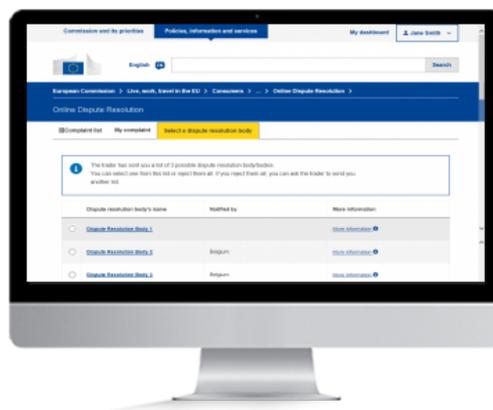

- Contact a national contact point
- Print the complaint information

Workflow

Consumer (Complainant)

2. Agree on a dispute resolution body

Once the trader has accepted the complaint, he will propose a list of possible dispute resolution bodies able to deal with your complaint

Overview

Once the trader has agreed to continue with the complaint and proposed possible dispute resolution bodies, you will have to set up an account in the system so you can access the following steps in the procedure. If you have already set one up, sign in.

Once you receive the trader's list of suggested dispute resolution bodies, you can either **accept a dispute resolution body from the list** or **request new list of dispute resolution bodies**. If you request new list of dispute resolution bodies, the trader will send other lists until you reach an agreement. You must accept at least one of the trader' suggested dispute resolution bodies from a list before the system can send the complaint to a dispute resolution body.

If you have any questions about the system, **contact a national contact point**.

At this stage, you can also perform the following actions:

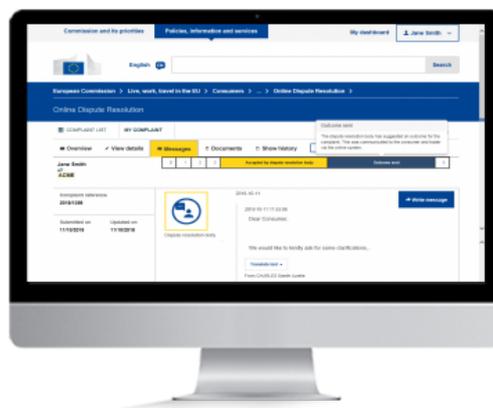

- Access your personal dashboard
- Print the complaint information
- Contact a national contact point

Workflow

Consumer (Complainant)

3. Exchange of information

Once the dispute resolution body accepts the complaint, it might ask you for further information.

Overview

While your complaint is being processed, you will be contacted by the dispute resolution body. It may want to discuss certain matters with you through messages or in a meeting, or it may ask you to provide certain documents. You will need to **reply to these messages** or **meeting requests** via the ODR system.

In order to proceed, sign in, open your complaint, in which you have received a message, and reply to the message. In the complaint you will find all the messages that you and the dispute resolution body have exchanged. You can also reply to meeting requests.

You may need to translate a text or a document.

At this stage, you can perform the following actions:

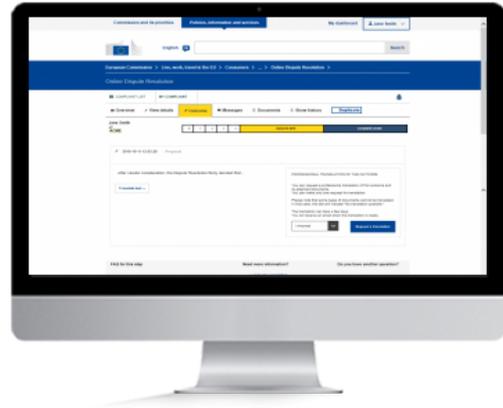

- Access your personal dashboard
- Contact a national contact point
- Reply to message from the dispute resolution body
- Reply to a meeting request
- Print the complaint information

Workflow

Consumer (Complainant)

4. View the outcome

Once the dispute resolution body reaches an outcome, it will send it to you.

Overview

The system will notify you of the outcome sent by the dispute resolution body.

You can **view the outcome** in the complaint itself. Sign in, open the complaint and open the outcome tab.

You can also access the outcome via the notification bell icon in the notification bar. Open the list and click on the outcome to open it.

At this stage, you can perform the following actions:

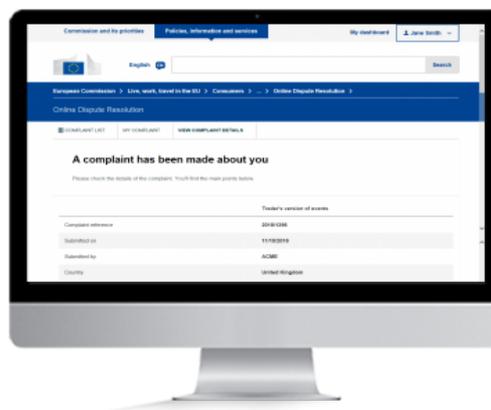

- Contact a national contact point

First sign in and view the complaint. To accept it, click on "I propose a dispute resolution body". To refuse, click on "I do not propose a dispute resolution body".

If you give your version, you can explain what happened. A list of dispute resolution bodies will then appear. Select one or more, and click on "I propose a dispute resolution body". The trader can then accept or refuse the body/bodies you suggested.

If the trader accepts a dispute resolution body, the complaint is automatically sent to that body.
