

ACTIONS PLANNED UNDER THE PARTNERSHIP

OBJECTIVE

The Joint Harmonised EU Programme of Business and Consumer Surveys is designed to gather information on the state of the economies in the EU Member States and in the candidate countries so as to be able to compare their business cycles for Economic and Monetary Union (EMU) management purposes. It has become an indispensable tool in the EMU economic surveillance process, as well as for general economic policy purposes.

The Programme involves specialised bodies/institutes carrying out one or more opinion surveys in the **27 EU Member States**, and **in the candidate countries: Croatia, the former Yugoslav Republic of Macedonia, Turkey, Iceland, Montenegro and Serbia** on a joint financing basis, more specifically in the following areas:

- Investment
- Construction
- Retail trade
- Services sector
- Industry
- Consumers

The Commission also organises *ad hoc* surveys on topical economic issues. These *ad hoc* surveys are by definition more occasional and are carried out in addition to the monthly surveys, using the same established samples as the monthly surveys, to obtain information on specific economic policy issues.
