

DESCRIPTION OF THE ACTION ON THE BUSINESS AND CONSUMER SURVEYS

1. WORK PROGRAMME, TIMING, TRANSMISSION OF RESULTS

1.1. The **beneficiary** shall carry out the following surveys according to the timing set out under point 1.2:

Industry survey
Investment survey
Construction survey
Retail trade survey
Service survey
Consumer survey

The **beneficiary** shall use for these surveys the questionnaires set out in this annex. The included questions shall precede any other questions which the **beneficiary** may pose on the same occasion. Mixing harmonised questions with additional questions on related concepts that might alter respondents' understanding of the harmonised questions shall be avoided.

1.2. Timing

1.2.1. **Industry, Construction, Retail trade, Services and Consumer** surveys will be carried out on a **monthly** basis as follows:

- The **beneficiary** will do the fieldwork in the first two to three weeks of the month “t” (t = month during which the data are collected).
- The **beneficiary** will do the calculations required and will send the results labelled as “results of month t” to the **Commission** in accordance with the following calendar; the deadline is generally five working days before the end of the month for the business surveys and seven working days before the end of the month for the consumer survey:

The data collected during: ¹	Time:	Industry Investment Construction Retail trade or Service surveys	Consumer survey only
May, year N	12:00
...
April, year N+1	12:00

The **quarterly questions** are to be included in the questionnaires in January, April, July and October.

1.2.2. For the **Investment** survey, the beneficiary will carry out:

- The Autumn survey in October/November and will send the data to the Commission **at least 5 working days before the end of November;**
- The Spring survey in March/April and will send the data to the Commission **at least 5 working days before the end of April.**

¹ As a general rule, data should be e-mailed to the Commission at least 5 working days (7 working days in case of consumer survey) before the end of the current month (except for the December business survey results which can be delivered by 3 January).

1.3. Transmission of results

1.3.1. For the **Consumer** survey:

The **beneficiary** will provide the Commission with one excel file containing two worksheets, via e-mail on a monthly basis:

The first worksheet will contain the summarised results of the survey. The results obtained for each question will be broken down by category of respondents according to the nomenclature attached to the consumer questionnaire in this annex and expressed as percentages of replies, except for the numerical questions on price trends (all figures with at least 1 decimal).

The second worksheet will contain the complete set of individual answers including the weight for each person (microdata).

1.3.2. For the **Industry, Investment, Construction, Retail trade and Services** surveys:

The **beneficiary** will provide the Commission, via e-mail, with one excel file for each survey carried out. The results obtained for each question will be broken down according to the nomenclature attached to the questionnaires in this annex and expressed as percentages of replies, except for the numerical questions, i.e. assured months of production, capacity utilisation, percentage change in investment, etc (all figures with at least 1 decimal).

The excel file containing the results will also provide an overview of the sample and response rate, including a breakdown by subsector.

For the questions on factors limiting production in industry ("business activity" in the service sector and "building activity" in the construction sector) respondents can choose more than one factor. Aggregate results per factor (in %) shall be calculated by summing the number of firms choosing a particular factor (taking into account firms' weights). Results shall be sent without adjusting, i.e. factor scores can add up to more than 100%.

For the investment structure (in the Oct/Nov investment survey), if respondents tick more than one category, each "tick" shall be divided by the number of ticks a firm gave. If, alternatively, quantitative percentage shares of investment categories are asked for, the beneficiary shall make sure that the sum of the shares adds up to 100% (both at the individual and the aggregate levels).

1.3.3. Files with the exact **layout** of the results are available and should be requested from the **Commission** by e-mail: ECFIN-BCS-MAIL@EC.EUROPA.EU

The **results** will be sent **in an excel format according to the exact layout and specifications set out by the Commission** to the following electronic addresses, or to such other addresses as may be notified to the **beneficiary** from time to time in accordance with Article I.5 of the framework partnership agreement:

Results for surveys in Consumers :	ECFIN-BCS-CONS@EC.EUROPA.EU
Results for surveys in Industry :	ECFIN-BCS-INDU@EC.EUROPA.EU
Results for surveys in Investment :	ECFIN-BCS-INVE@EC.EUROPA.EU

Results for surveys in Retail trade :	ECFIN-BCS-RETA@EC.EUROPA.EU
Results for surveys in Services :	ECFIN-BCS-SERV@EC.EUROPA.EU
