**Framework contract for the "Assessment of voluntary schemes and Agreements used for sustainability claims related to Directive 2009/28/EC"**

*Time-limit for receipt of tenders: 06/07/2012*

**Last Update 18/06/2012**

**Question 1.** Regarding Invitation to Tender number ENER/C1/426-2012 "*Framework contract for Assessment of voluntary schemes and agreements used for sustainability claims related to Directive 2009/28/EC*".

Task 3 calls for assistance with exploratory work for the conclusion of bilateral or multilateral agreements, for which the Contractor might be asked to assess specific laws, certification regimes and other documented requirements provided by the Commission. It is understood that the Commission is not able already to elaborate on which countries or regions might be the subject of bilateral or multilateral agreements, but will the Contractor be expected to anticipate translation as part of this contract, or will all input documentation be provided in English?

**Answer 1.** **The documents to be assessed in the framework of "TASK 3 – Assist assessing compliance with sustainability criteria in the context of bilateral agreements" will be provided to the contractor in English.**
